Week 22 / Meeting regions / Problem menu

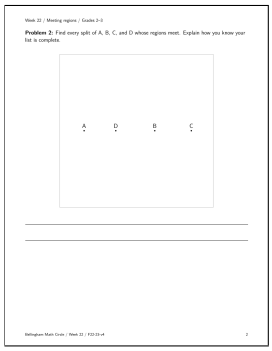

for adults: pick, then print

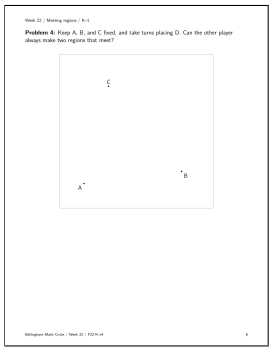

Put D on each cross and make the regions meet
K–1 P1 · Grades 2–3 P1 · Grades 4–5 P1
first route
wording differs by band

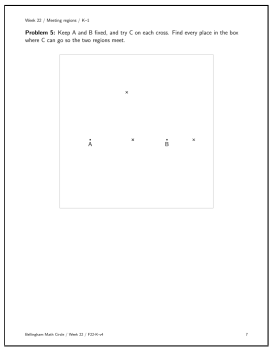

Every meeting split for three places of D
K–1 P2
first route

Every meeting split of four dots on a line
K–1 P3 · Grades 2–3 P2 · Grades 4–5 P2
first route
wording differs by band

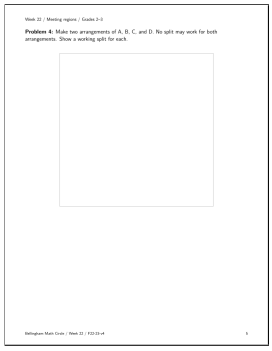

Place D against a fixed triangle
K–1 P4
return route

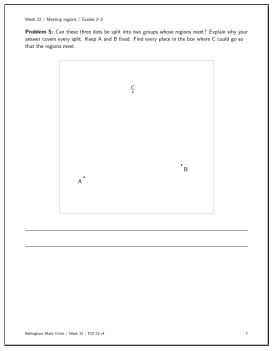

Where can C go so two regions meet?
K–1 P5
return route

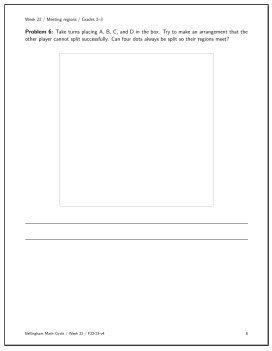

A shared segment, but never a shared filled triangle
Grades 2–3 P3
first route

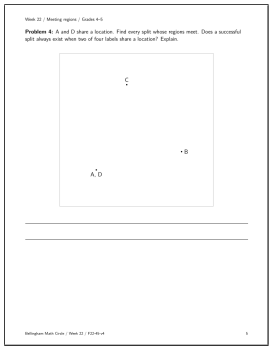

Two arrangements with no common working split
Grades 2–3 P4
first route

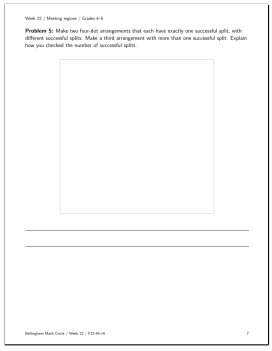

Three dots, and where C could go
Grades 2–3 P5
return route

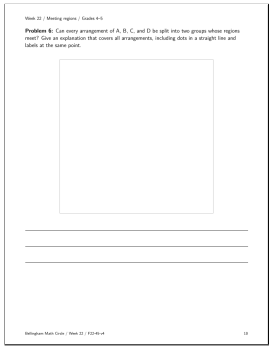

The placing game: can four dots always be split?
K–1 P6 · Grades 2–3 P6 · Grades 4–5 P3
K-1 return; 2-3 return; 4-5 first route
wording differs by band

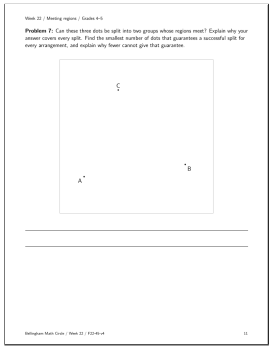

Two labels at one point
Grades 4–5 P4
return route

Arrangements with one, and more than one, working split
Grades 4–5 P5
return route

Can every arrangement be split?
Grades 4–5 P6
return route

The smallest number of dots that guarantees a split
Grades 4–5 P7
return route
