**Problem 2:** Close the edges on the disk, then keep them fixed while the piece turns and slides. Which pieces can turn all the way around inside them? Which can keep touching both edges throughout the turn? Keep a sketch of a deciding position.

| | turn inside? | touch both throughout? | deciding position |
|---|---|---|---|
|  disk | | | |
|  oval | | | |
|  square | | | |
|  straight triangle | | | |
|  curved triangle | | | |
