

Two teams, no shared colors

Name: _____

Date: _____

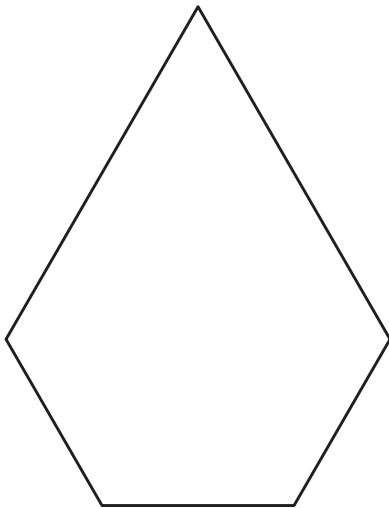

Use only green triangles, blue rhombi, red trapezoids, and yellow hexagons.

1. The pennant / P1

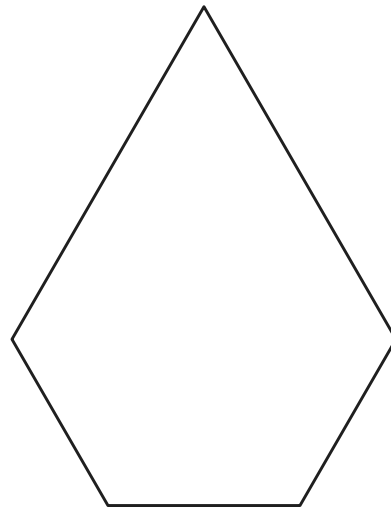

First, fill the two outlines in different ways. Then try the color rule.

Keep both copies built. A color used in A cannot be used in B.
Cover each outline exactly: no gaps, overlaps, or pieces outside.

Copy A

Copy B

Colors in A: _____ Colors in B: _____

How did you check that no color appears in both copies?

Keep exploring: Change two or more pieces at once. Can you still follow the color rule?

Adult: print at **100% / Actual Size**, single-sided. This line is 1 inch (25.4 mm) in the default file. Match a green triangle's edge to it before using the mats.

A bigger outline

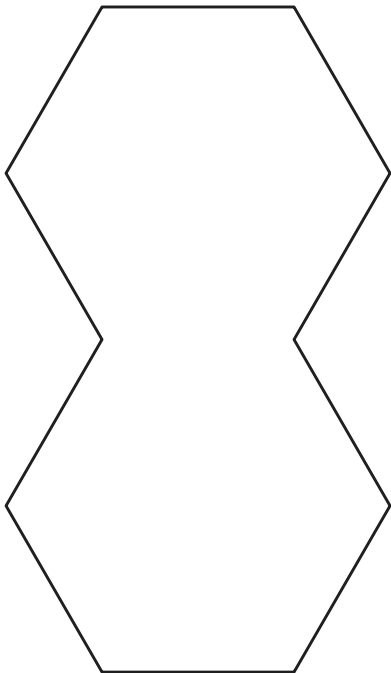

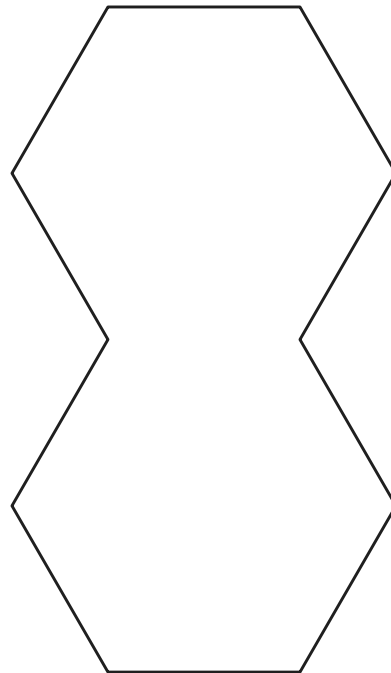

Name: _____

Date: _____

2. Double hexagon / P2

Fill both outlines. You may turn any block.

Keep both copies built. A color used in A cannot be used in B.
Cover each outline exactly: no gaps, overlaps, or pieces outside.

Copy A**Copy B**

Colors in A: _____ Colors in B: _____

Show or describe a trade that helped you.**Partner puzzle:** Show your first copy. Can your partner make the other copy using none of your colors?

Build first. You may explain by pointing, talking, or drawing.

Yellow takes a break

Name: _____

Date: _____

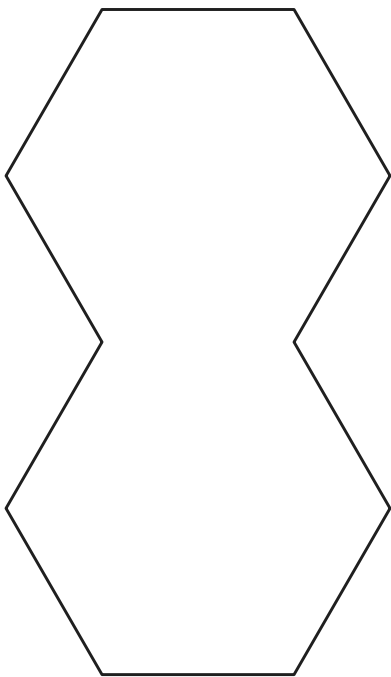

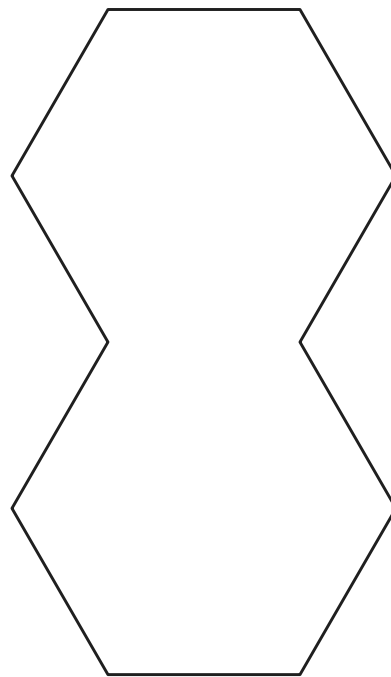

3. Double hexagon / P2, no yellow

Set all yellow blocks aside. Can you still make both copies?

Use only green, blue, and red blocks.

Keep both copies built. A color used in A cannot be used in B.

Cover each outline exactly: no gaps, overlaps, or pieces outside.

Copy A**Copy B**

Colors in A: _____

Colors in B: _____

What changed when you could not use yellow?

If you want another puzzle: Build a small new outline on scrap paper. Find two fillings with no colors shared. Trace only the outside for a partner.

Build first. You may explain by pointing, talking, or drawing.
