

Shape Detectives!

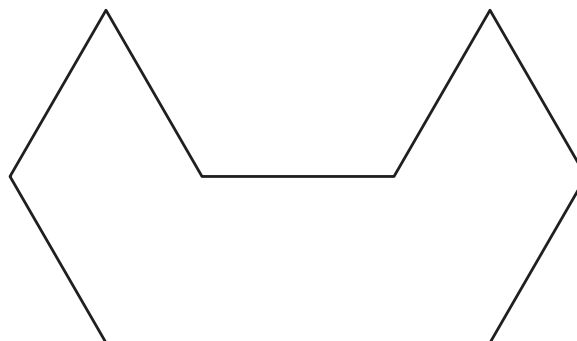

Today you'll become a shape detective and discover how pieces fit together!

Problem 1: Fill the sailboat and the cat. Use any small pieces. Turn them to fit, with no gaps or overlaps.

Sailboat

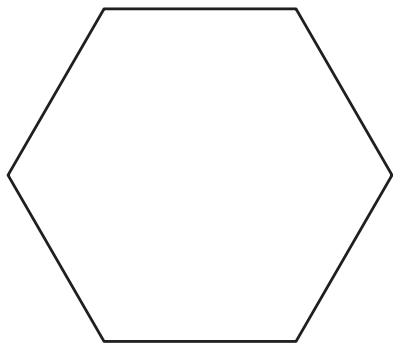

Cat

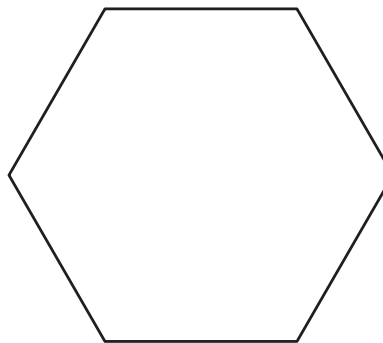

Problem 2: Fill each shape two different ways. You can use different kinds of small pieces. Ask an adult to trace your pieces before you lift them to use again. Great job! You're a tiling superstar!
