

Take the Last One!

A counter game for two players

My name: _____

1

Make a pile.

2

✓

1

✓

2

no!

3

**Take turns.
Take 1 or 2.**

3

**Take the last one.
You win!**

Play here! Put counters in the circles. Take them off from the end. Start with 5 counters. Then try 7. Then try 10.

○	○	○	○	○
○	○	○	○	○

Who took the last one? Make a mark for each win.

Me

My friend

Three friends? Two play and one is the helper. Switch after each game.

Tiny piles

It is **YOUR** turn. Can you win? Use real counters to find out!

Circle the smile 😊 if you can win.

Circle the web 🕸 if you can't win.

1

I can win

trap

2

I can win

trap

3

I can win

trap

Try it! Draw what your friend gets.

I take 1.

Traps

A **TRAP** is a pile you do not want on your turn.

Which tiny pile is a trap?

Trap hunt

Remember

3 is a trap. Give your friend a trap and you can win!

Can you take 1 or 2 and leave a trap? Write how many you take.
No way to leave a trap? Then this pile is a trap too!

	I take	circle one
4	1 <i>friend gets 3</i>	I can win trap
5		I can win trap
6		I can win trap
7		I can win trap
8		I can win trap
9		I can win trap

Circle the traps you found. What comes next?

1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
---	---	---	---	---	---	---	---	---	----	----	----	----	----	----

Trap your grown-up!

Play against your grown-up. Before each game, **you choose**: go **first** or go **second**? Try to give the grown-up a trap every time.

start with	I went (circle)	I won? (circle)
5	first second	😊 not yet
6	first second	😊 not yet
8	first second	😊 not yet
9	first second	😊 not yet
You pick the start!	first second	😊 not yet

New rule!

Now you may take 1, 2, or 3.

Play it. Is 3 still a trap?

Find the new traps. Circle them.

1	2	3	4	5	6	7	8	9	10	11	12
---	---	---	---	---	---	---	---	---	----	----	----
