Adults: print at 100% (Actual size), on card stock if you have it, and cut along every line. One page makes 80 tiles, 20 mm square: 40 A and 40 B, enough for two kits of 36 (18 A and 18 B) with 8 spare. The B tiles are shaded so the two piles sort quickly; the letter is what counts. These tiles have not yet been tried with children.
