Worked examples / square start

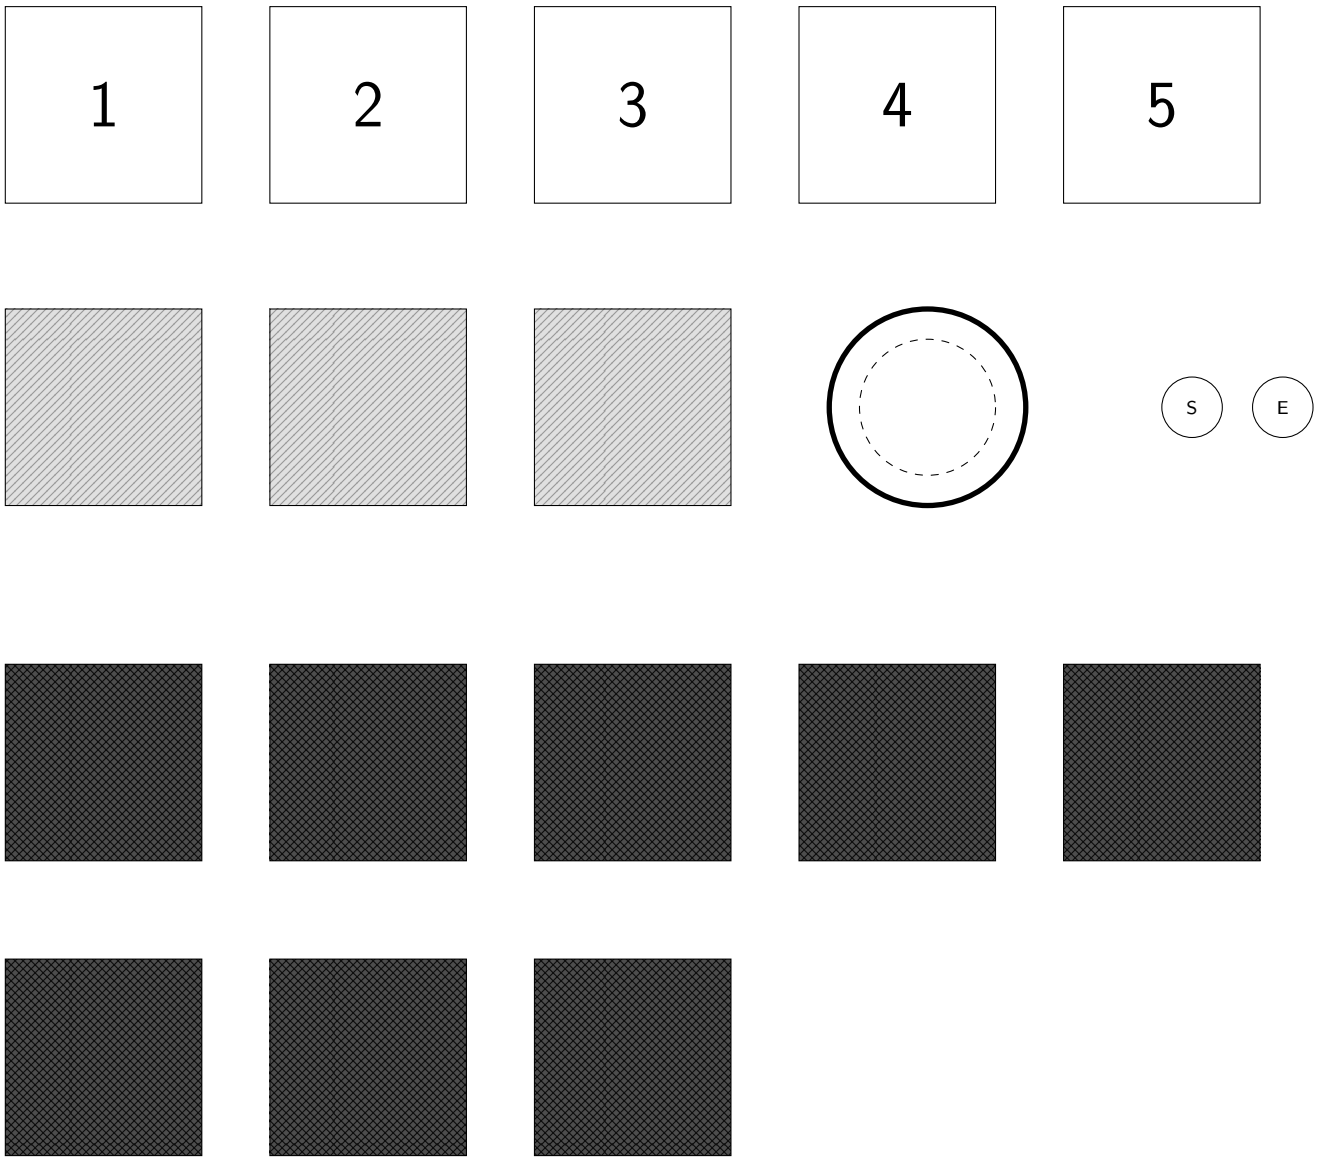

Keep this board whole. Put loose gray pieces on the missing squares shown on a start card; put the number tiles on its numbered squares. Cover each new exit with a loose dark piece.

Print at 100% scale. Each cell is 30 mm square.

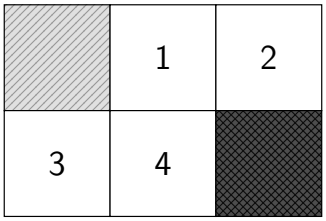

One kit: cut out the pieces. Cut out the center of the open ring. Keep S and E beside the marked cell corners.

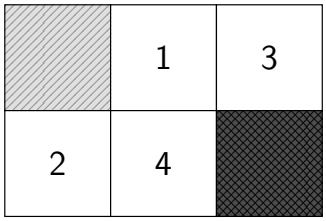

Number and mask pieces are 26 mm square. The ring is 26 mm across. Gray means missing; dark means outside. Print one kit per pair.

Cut on dashed lines. Keep each start card unchanged for resetting and sorting.
