One arrow moves to the center of the next small square. Right meets left at the same height; top meets bottom at the same place across. Keep going the same way. Repeated copies continue beyond the page.

portal map

two steps right

repeated map

original copy next copy

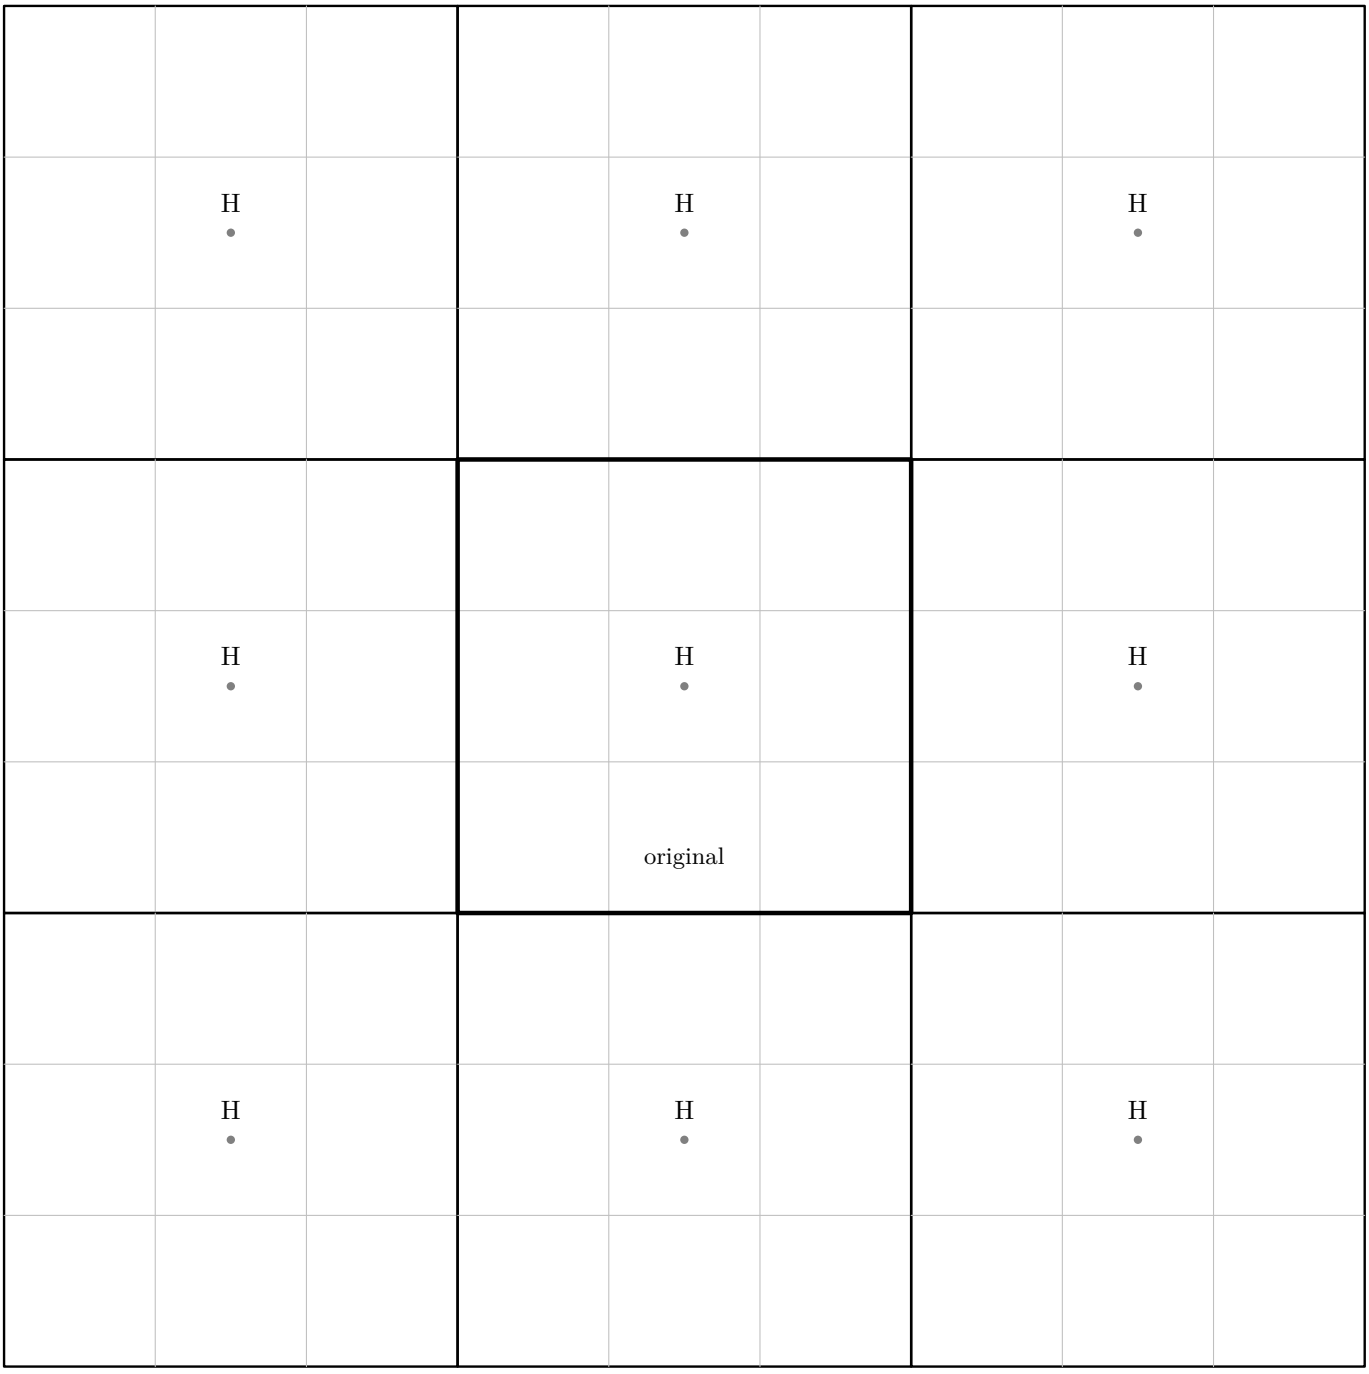

Problem 3: Replay each trip on these copies, starting at the original H. Mark the copy where each trip finishes.

$\rightarrow \rightarrow \rightarrow$

$\rightarrow \rightarrow \rightarrow \uparrow \uparrow \uparrow$

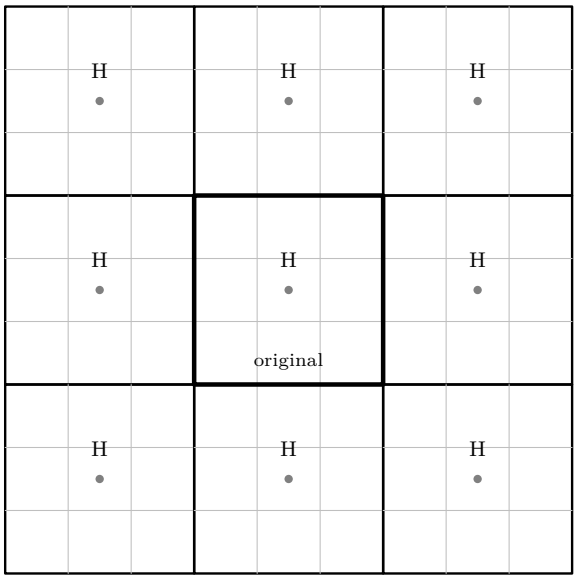

$\uparrow \uparrow \uparrow$

$\rightarrow \rightarrow \leftarrow \leftarrow$

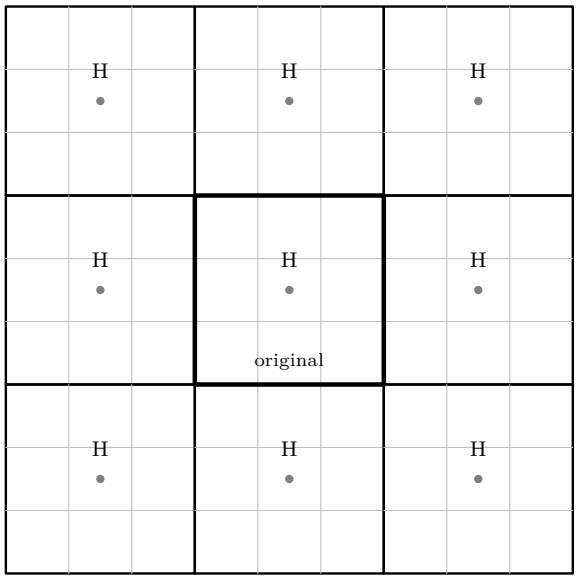

Problem 4: Compare these three trips from H. Which of them finish at the same place on the portal map? Which finish in the same copy on the repeated map?

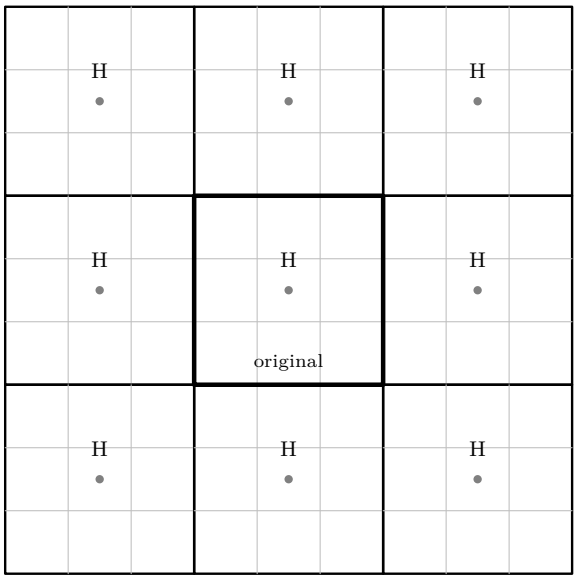

$\rightarrow \rightarrow \rightarrow \uparrow \uparrow \uparrow$

$\rightarrow \uparrow \rightarrow \uparrow \rightarrow \uparrow$

$\rightarrow \rightarrow \rightarrow \downarrow \downarrow \downarrow$

Problem 5: Make a trip that visits another copy and finishes at the original H. Can you make one that visits both a copy above and a copy to the right?
