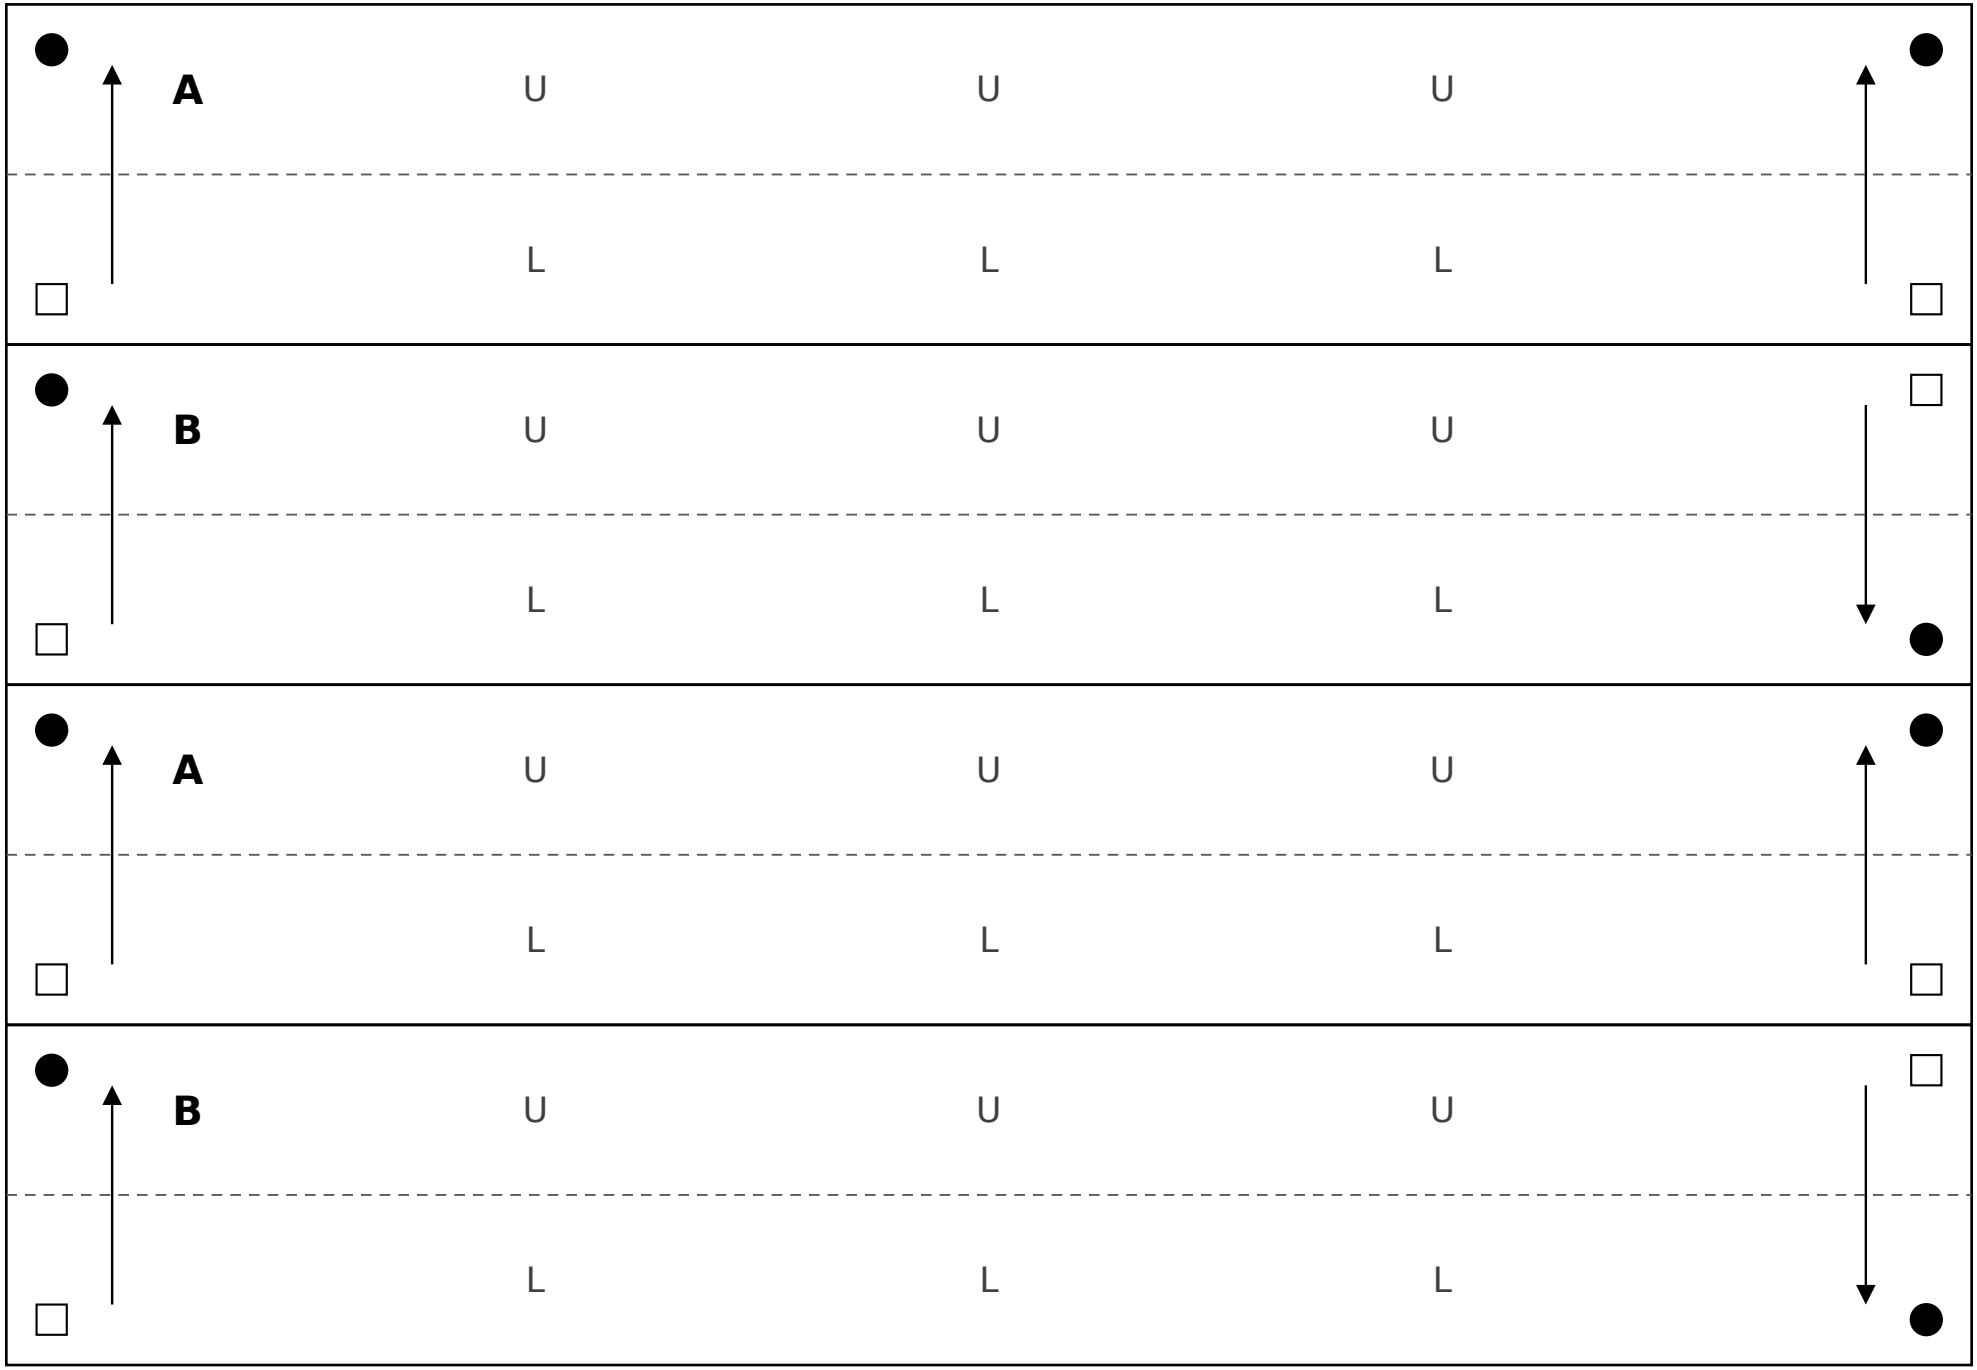
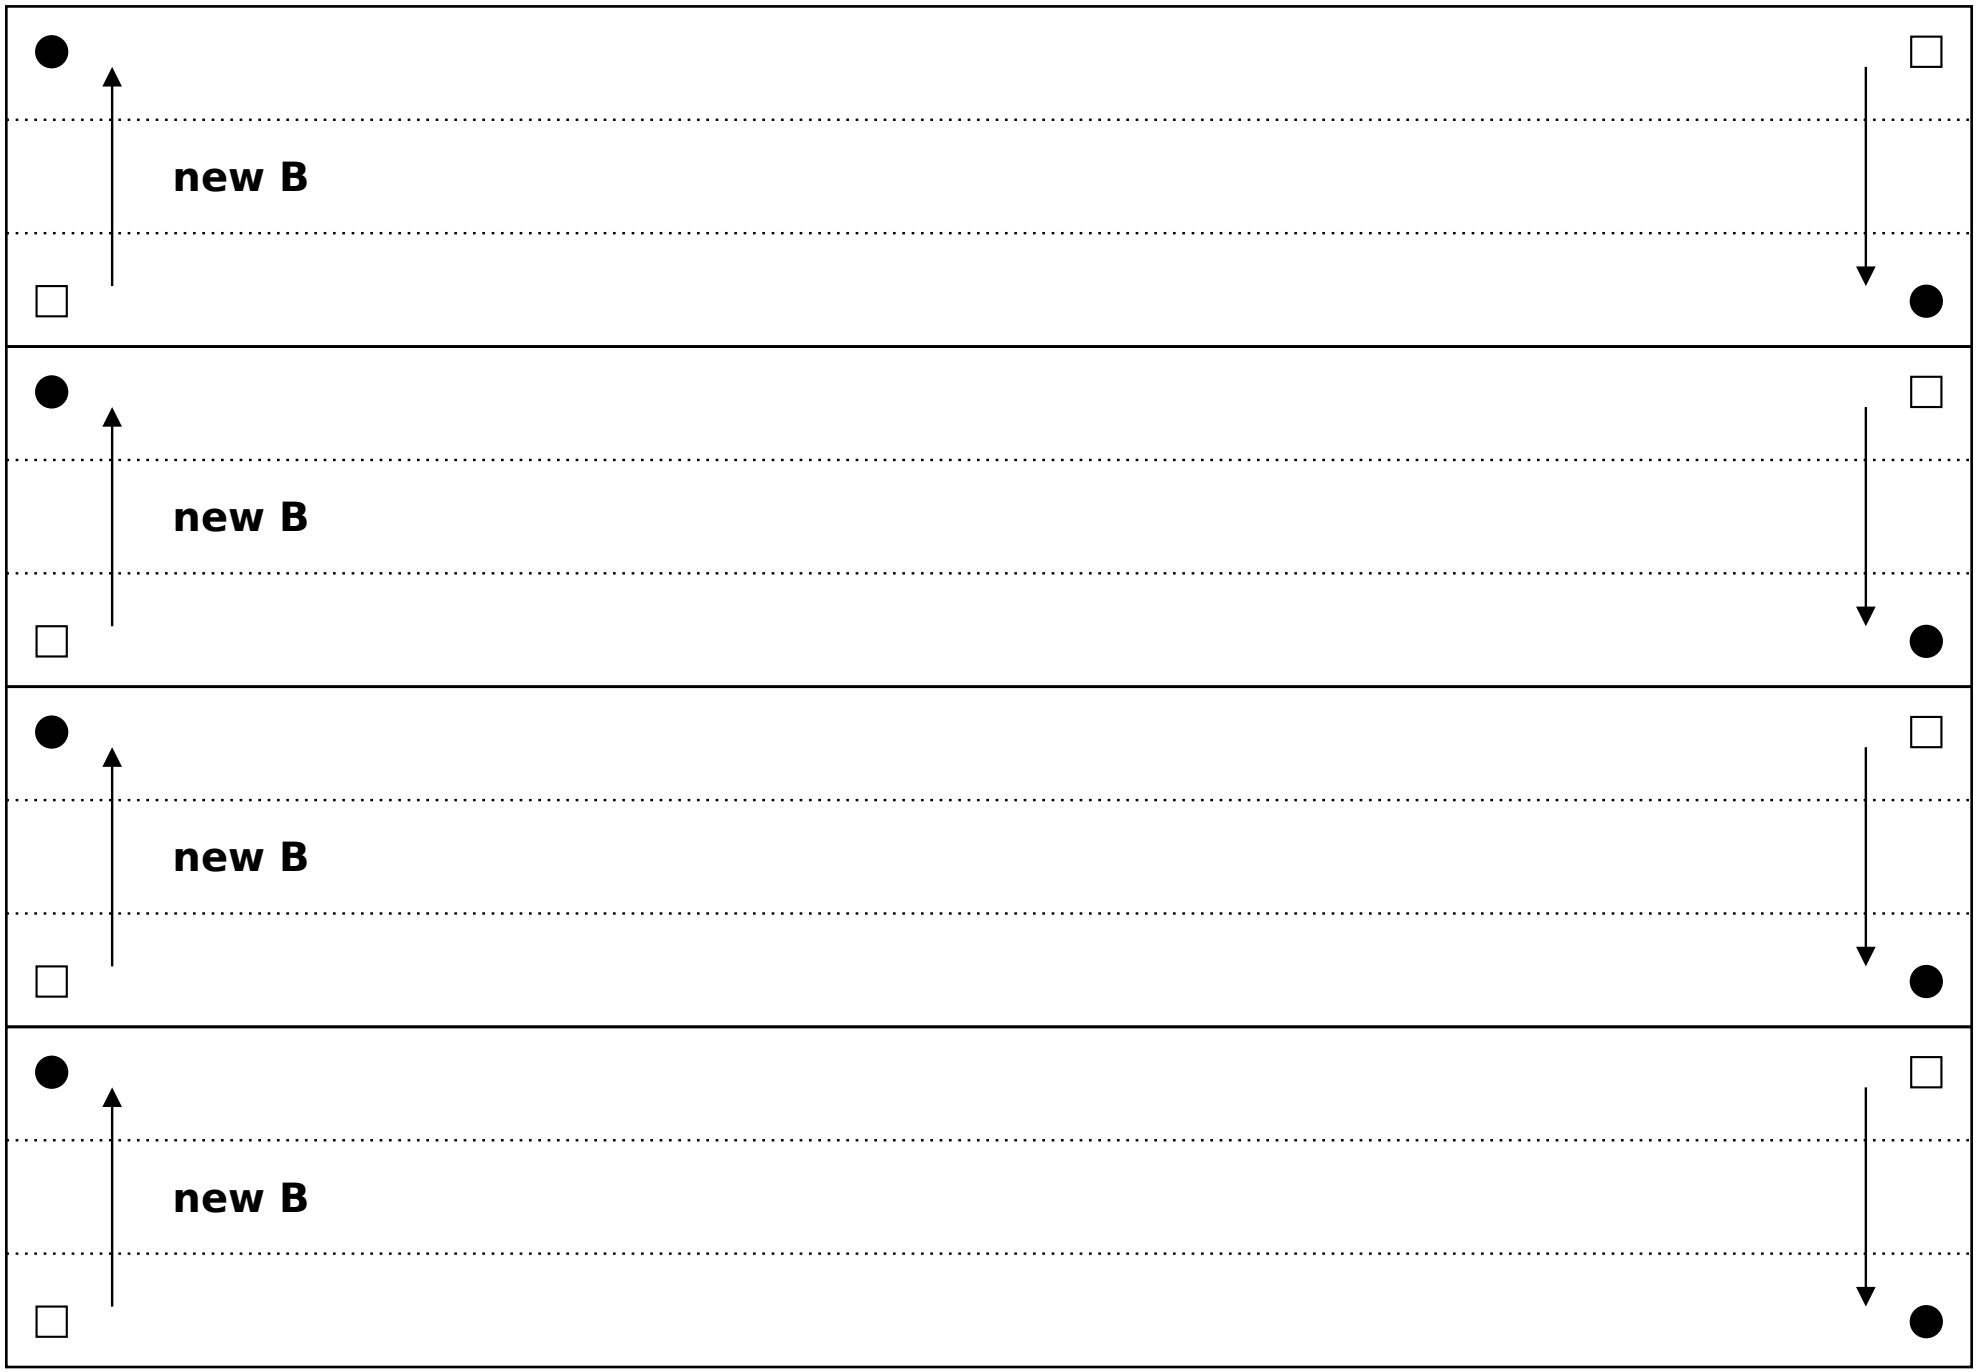
Print 14 copies at 100% on copy paper: one per child (grades 4–5 use the spare A and B in Problem 6), three for the adults. Cut on the solid lines.
Write U and L on the back, behind the printed U and L. Tape the short ends on both faces, dot to dot and square to square: A with no twist, B with one half-turn.



10 cm check: this line must measure 10 cm

Print 3 copies at 100% on copy paper: twelve strips for eight children, the pretest, the launch and two spares. Cut on the solid lines.
Join each as B, with one half-turn. The dotted lines meet at the seam as one closed line; in Problem 7 an adult cuts along it until the cut closes, twice round.



10 cm check: this line must measure 10 cm
