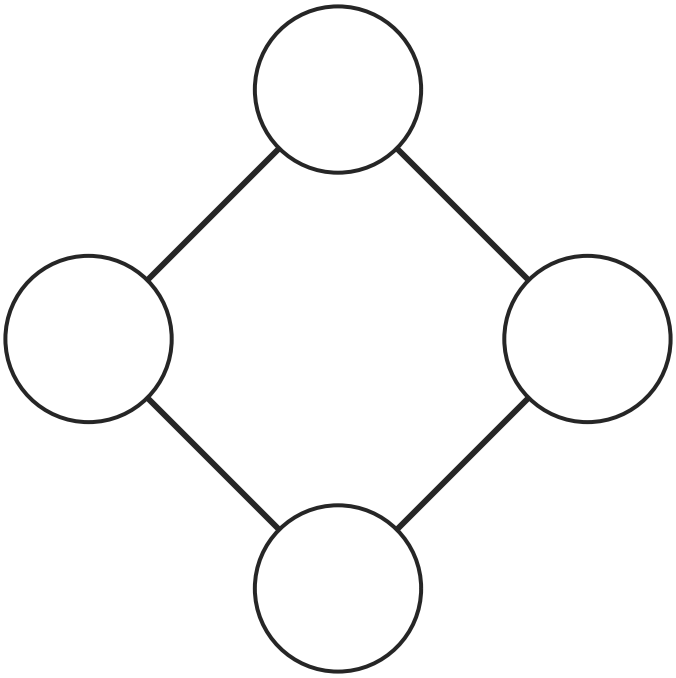
Board sheet 1 of 3: square board, six-ring board

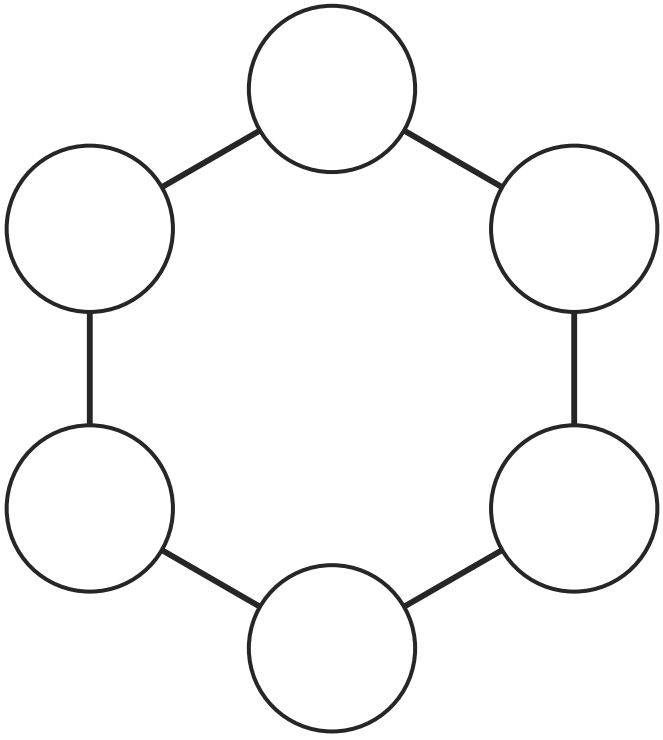
Print on copy paper, at 100%: K–1 2 · Grades 2–3 2 · Grades 4–5 1 · adults 1. One sheet per pair and one for the launch; pages 1–3 make one set of boards.

A counter on every lamp: dot up is ON, blank up is OFF. Set the counters to a start picture. One child points to a line; the partner flips the counters at both of its ends.

Extra workspace: square board (Problem 1)



Extra workspace: six-ring board (Problems 2, 3 and 6)



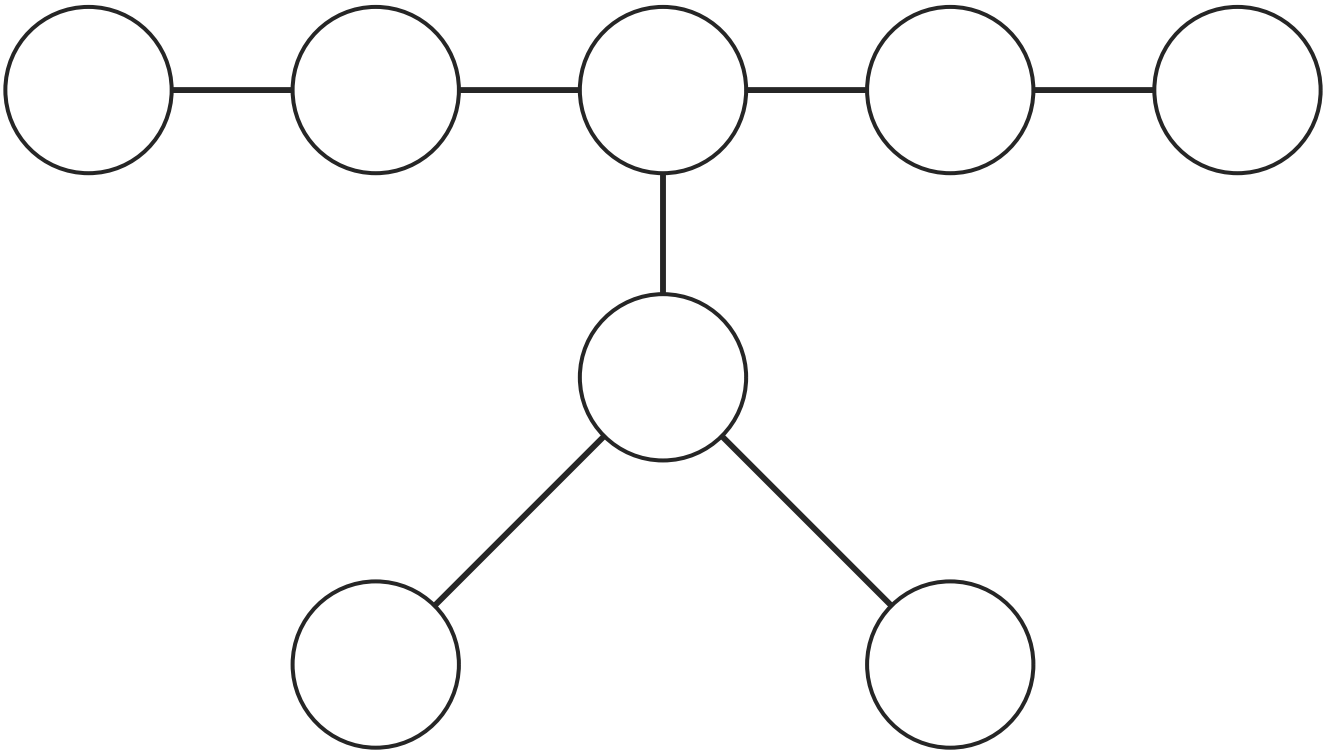
10 cm check: this line must measure 10 cm

Board sheet 2 of 3: tree board, islands board

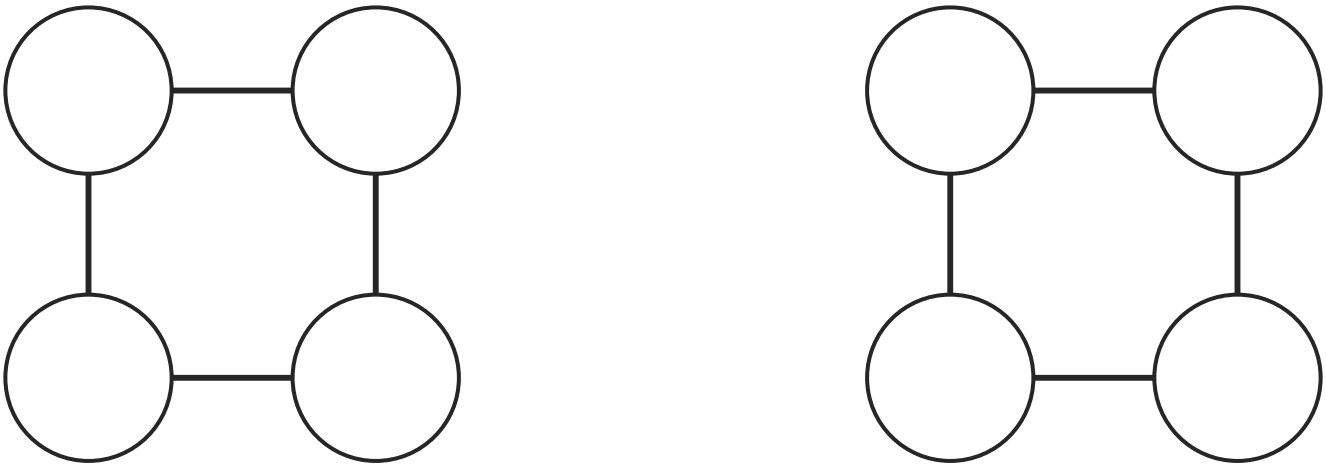
Print on copy paper, at 100%: K–1 2 · Grades 2–3 2 · Grades 4–5 1 · adults 1. One sheet per pair and one for the launch; pages 1–3 make one set of boards.

A counter on every lamp: dot up is ON, blank up is OFF. Set the counters to a start picture. One child points to a line; the partner flips the counters at both of its ends.

Extra workspace: tree board (Problems 4 and 5)



Extra workspace: islands board (Problems 8 and 9)



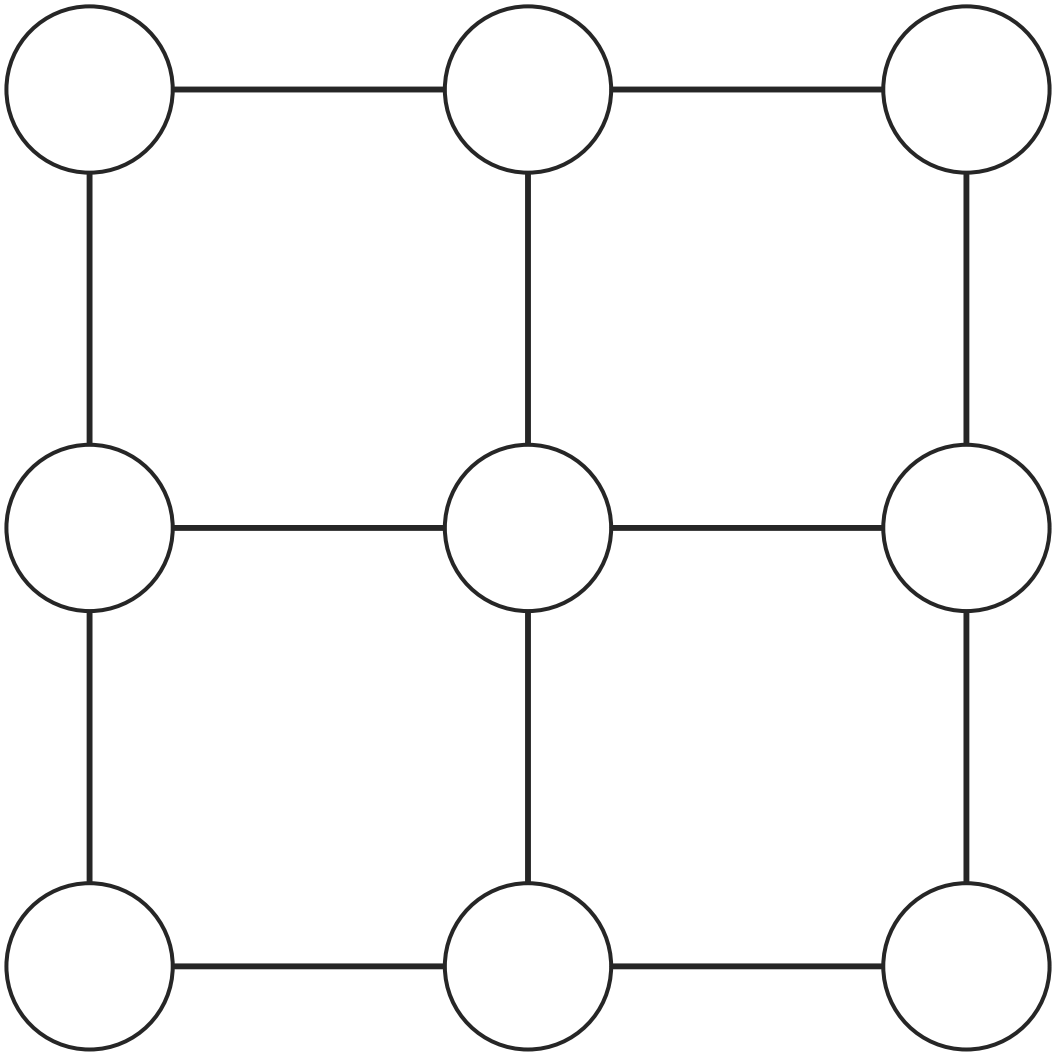
10 cm check: this line must measure 10 cm

Board sheet 3 of 3: 3 × 3 grid board

Print on copy paper, at 100%: K–1 2 · Grades 2–3 2 · Grades 4–5 1 · adults 1. One sheet per pair and one for the launch; pages 1–3 make one set of boards.

A counter on every lamp: dot up is ON, blank up is OFF. Set the counters to a start picture. One child points to a line; the partner flips the counters at both of its ends.

Extra workspace: 3 × 3 grid board (Problem 7)

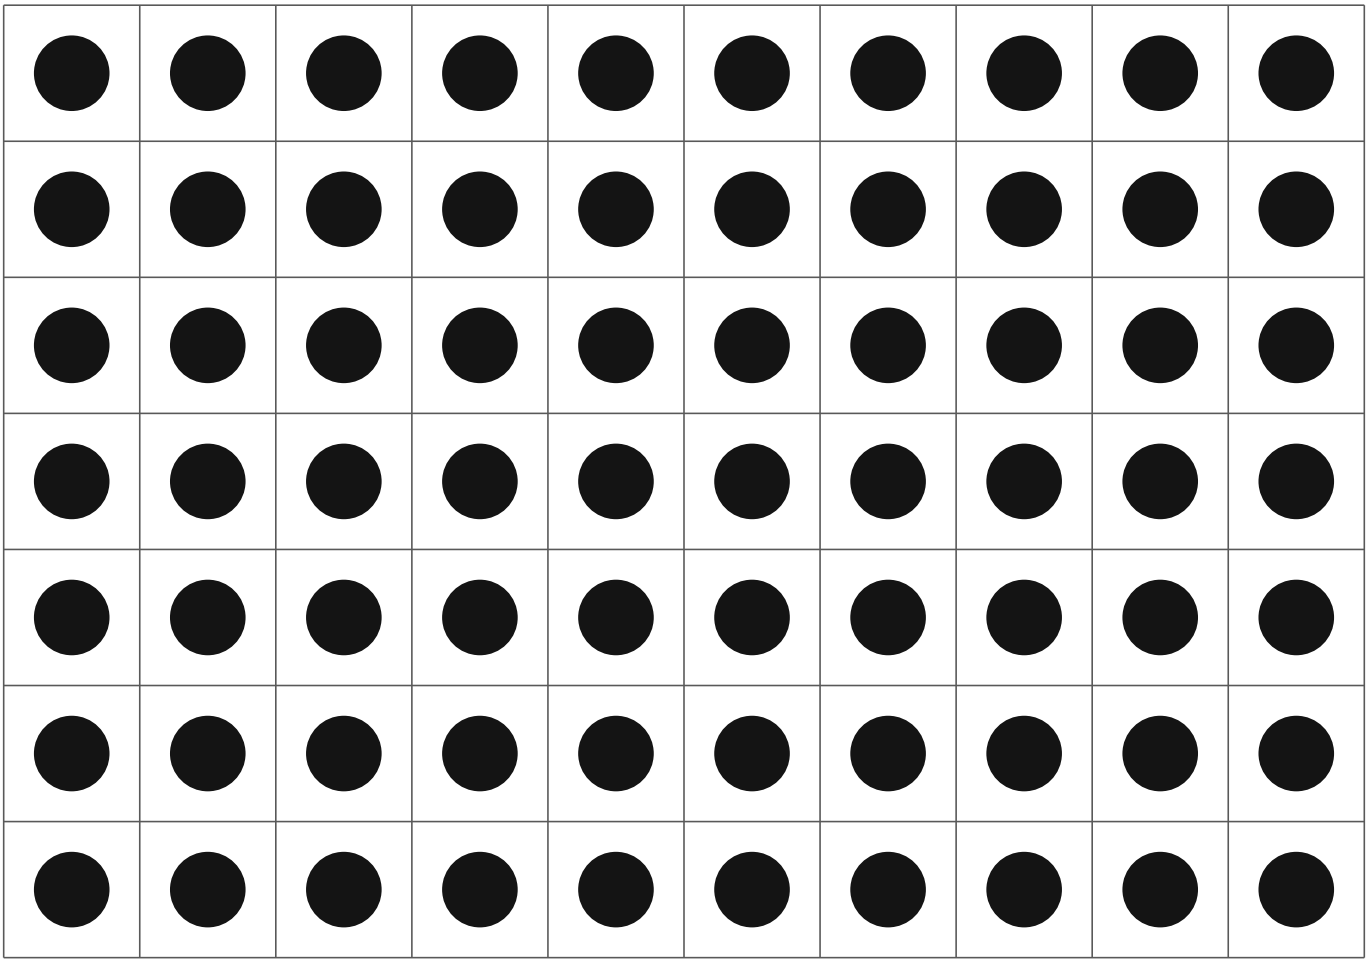


10 cm check: this line must measure 10 cm

Counters: dot up is ON

Print on card stock, at 100%: one sheet in all. Cut it into 6 sets of 11 counters, one set for each board set: K–1 2 · Grades 2–3 2 · Grades 4–5 1 · adults 1; 4 are spare.

Cut along every line with a paper trimmer: first the long lines, then across. The back of each counter stays blank: blank up is OFF. Existing two-colour counters work too; choose one colour for ON.



10 cm check: this line must measure 10 cm
