A card fits inside another when all its pictures are on the other card. The empty card fits inside every card. In a collection, no card may fit inside another. Use a card only once in a collection.

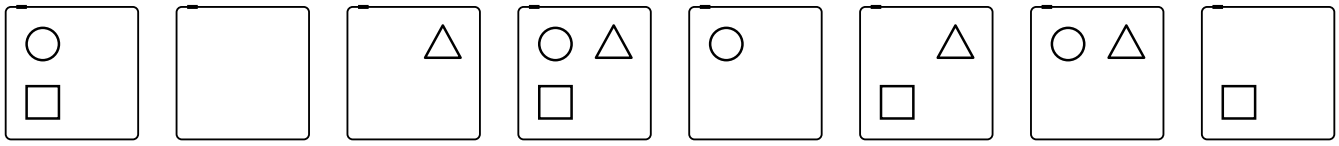

Problem 1: In each group, circle as many cards as you can without breaking the rule.

Problem 2: Find every collection of one or more cards from this deck.

Problem 3: Find as many different two-card collections as you can from this deck.

Problem 4: Make the biggest collection you can from this deck. Make a different collection just as big.
