Problem 5: Find every hop from 1 to 5 that draws each picture. Write the hops under the picture.

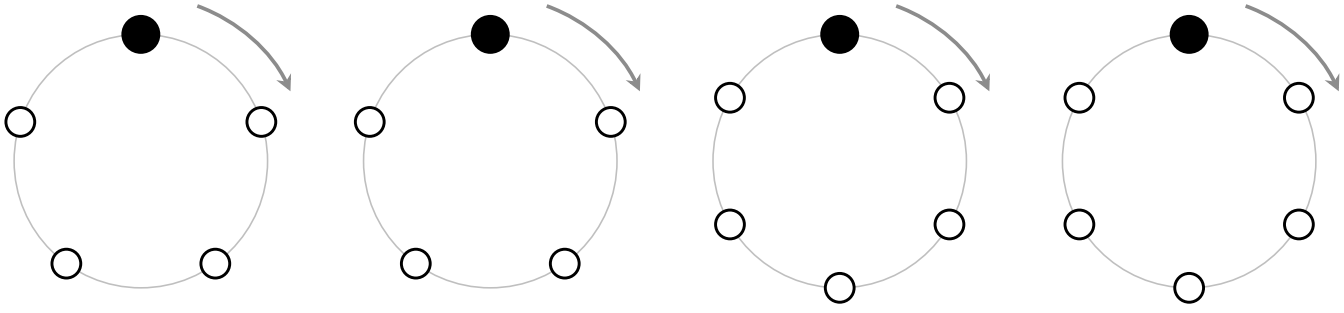

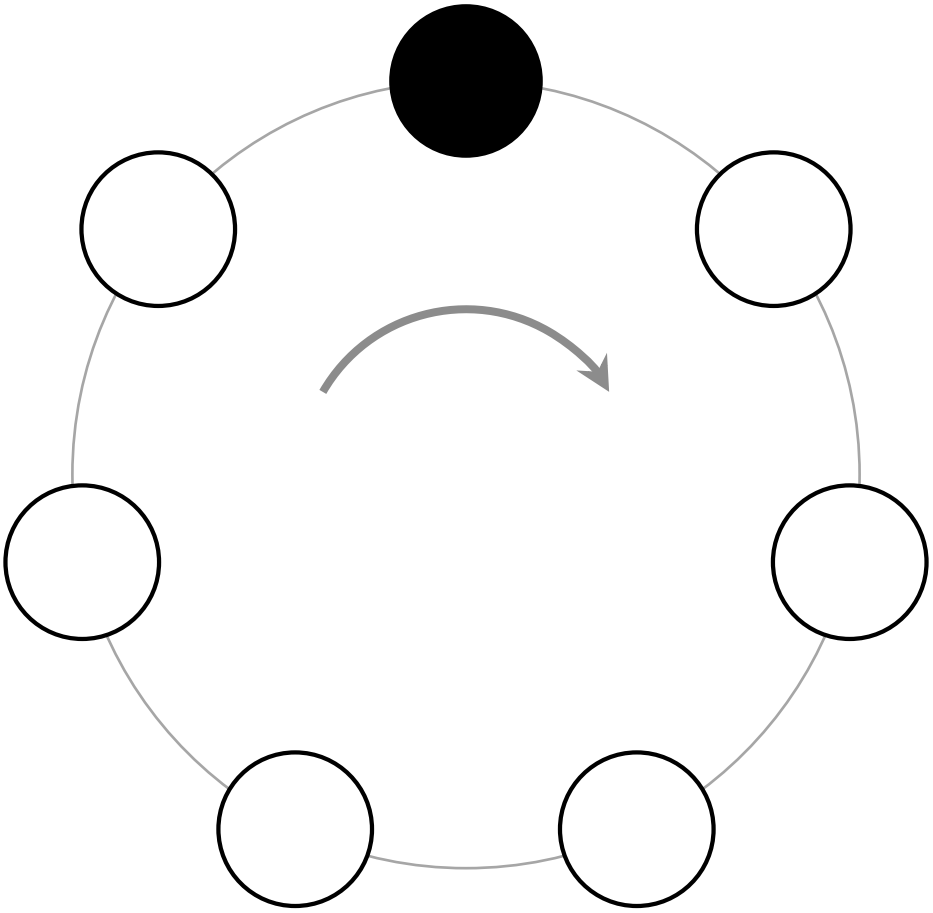

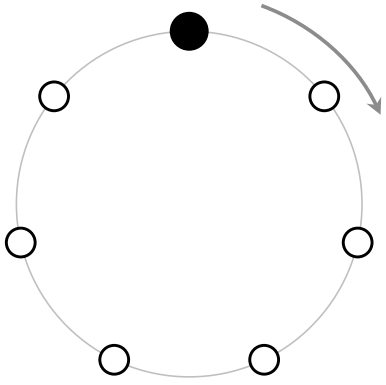

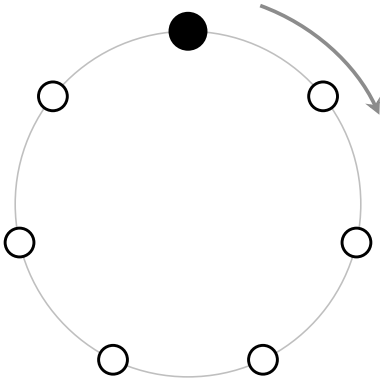

Problem 6: Put a counter on the black dot and hop it until it is back. Draw each hop on a small ring, and circle each hop that lands on every dot.

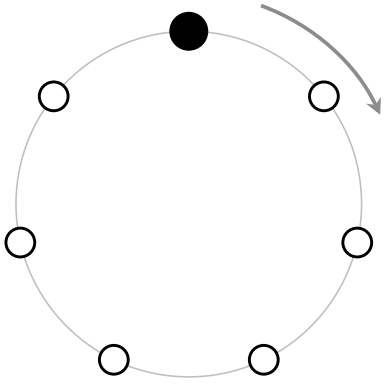

hop 1

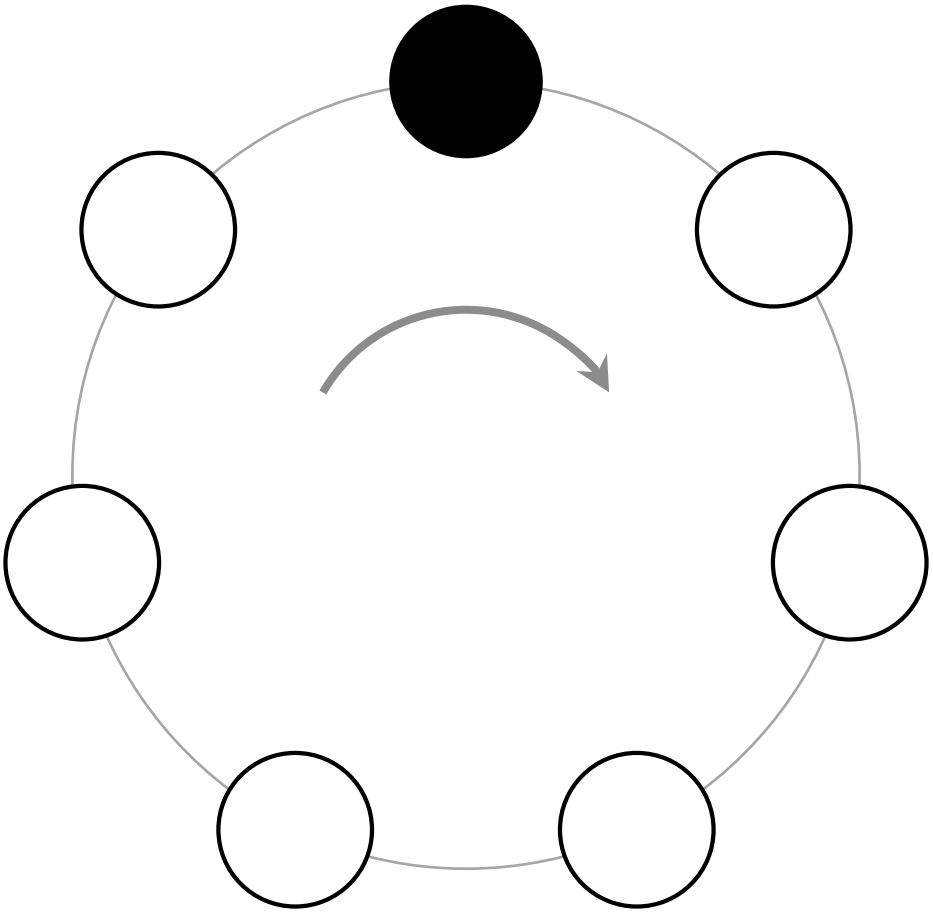

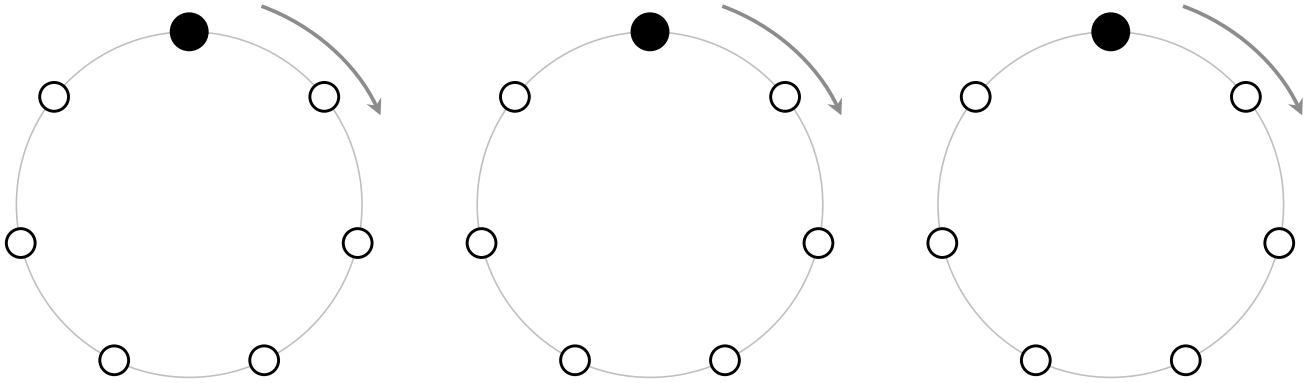

hop 2

hop 3

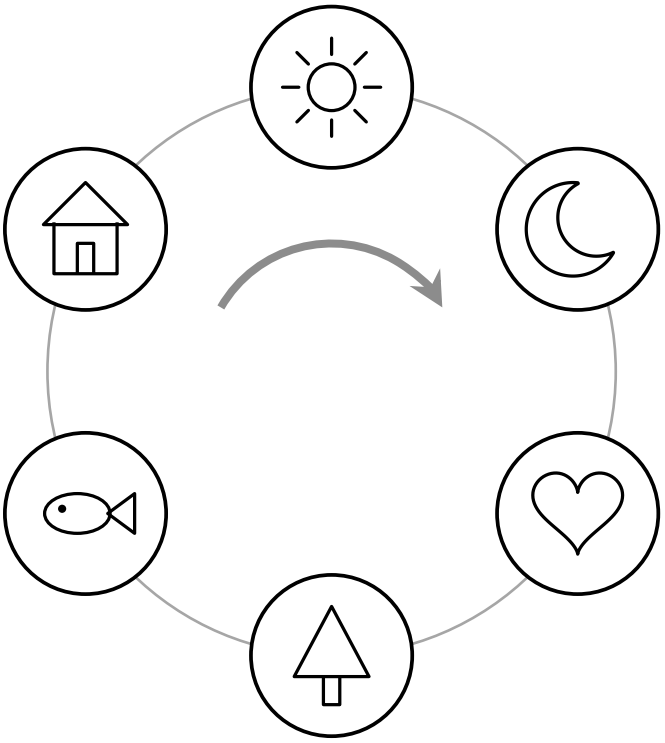

Problem 7: Do the same with hop 4, hop 5 and hop 6 on this ring of 7 dots.

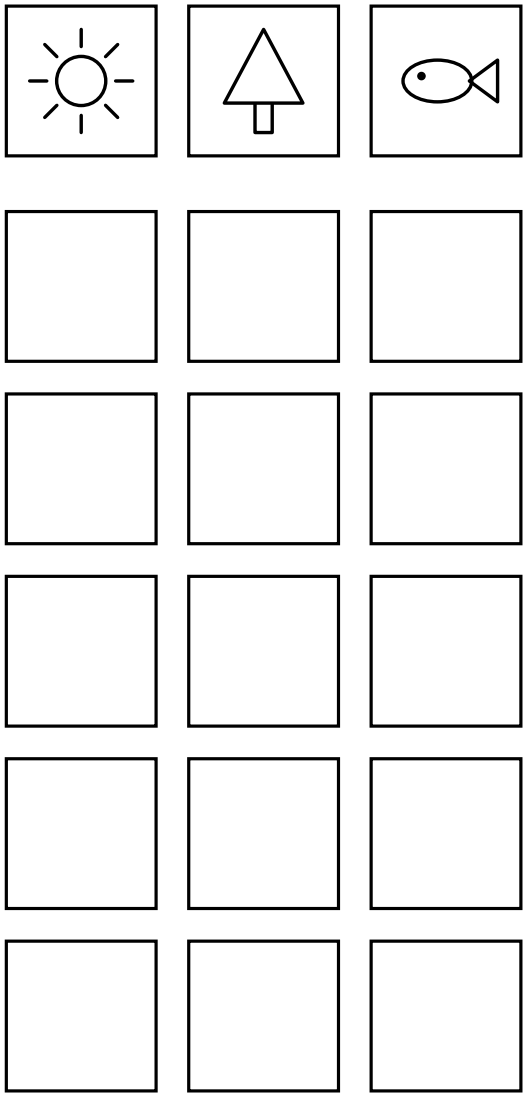

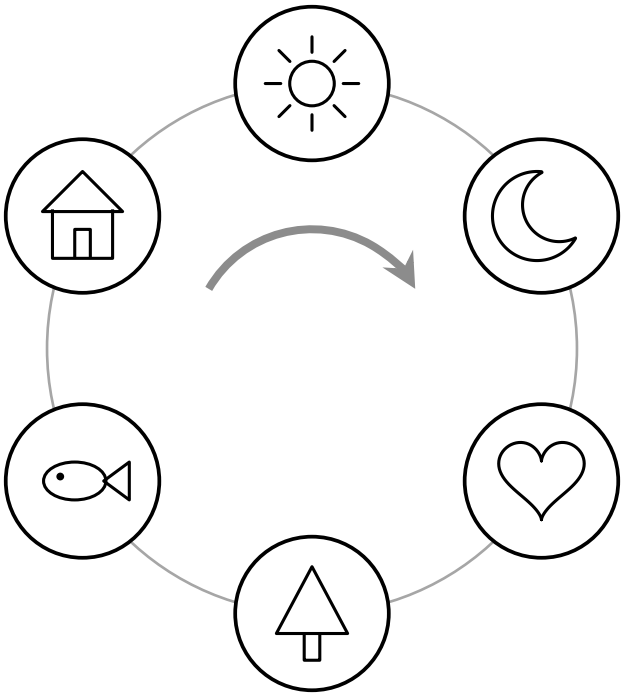

hop 4 hop 5 hop 6

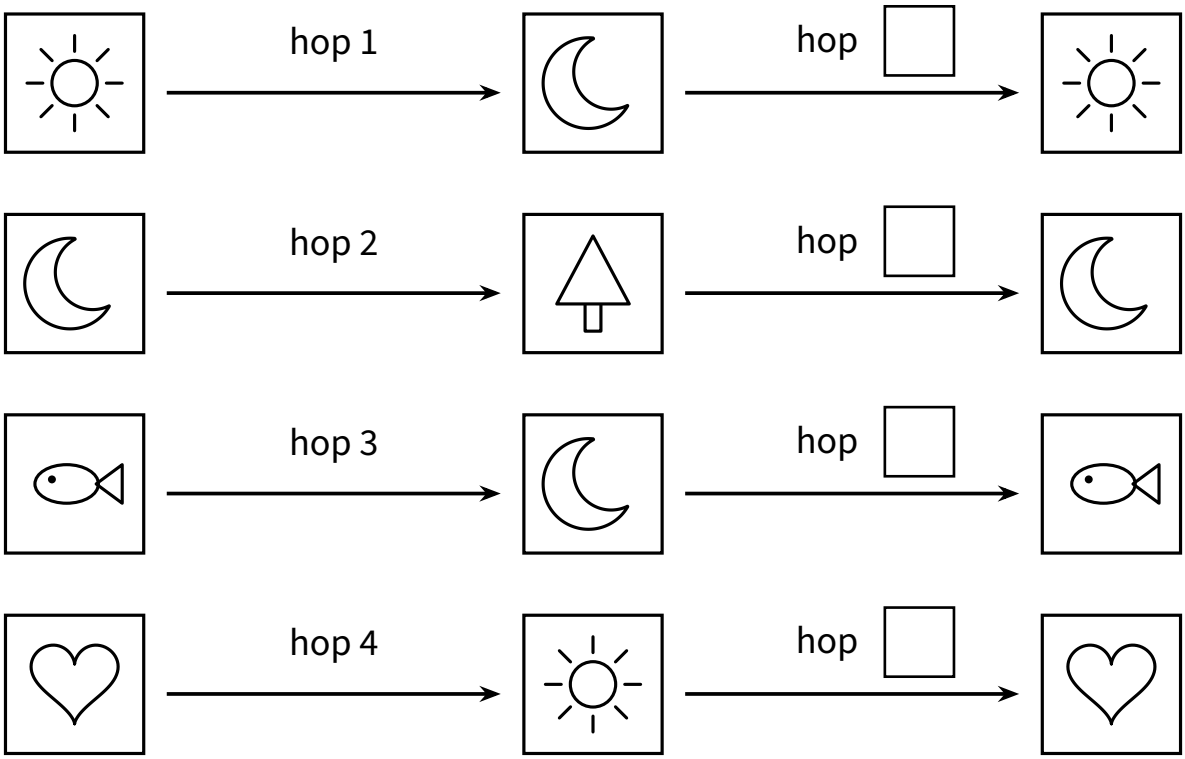

Problem 8: Hop 2 changes each picture into the picture 2 places along the arrow. Use hop 2 on each row to make the next row, until you get the top row again.

Problem 9: Which hop changes the picture back to what it was? Write that hop in the box.

Problem 10: A secret hop changed the sun into the tree. Draw what the same hop changes each of these pictures into.
