Keep cords on the table. Move them without cutting or passing strands through each other. Use red (R), blue (B), and green (G).

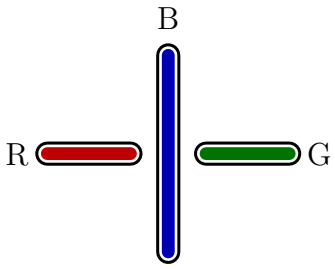

Follow X across the overpass to the next gap.

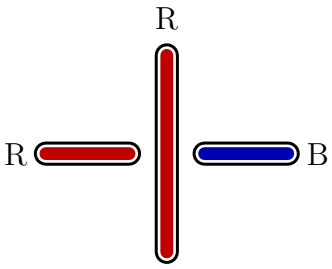

An arc runs between underpasses and continues through overpasses. A closed strand with no underpasses is one whole arc. Give each whole arc one color. At each crossing the colors must be all the same or all different.

Problem 6: Keep each end dot its shown color. Which color choices let you color every arc of both strands and obey both crossings?

A strand may stop at an end dot in this picture. Use tracing paper for each try.

	L	P	S	Q
1	R	B	R	B
2	R	R	B	R
3	G	B	G	B
4	B	G	B	R
5	B	B	B	B
6	R	G	R	G
