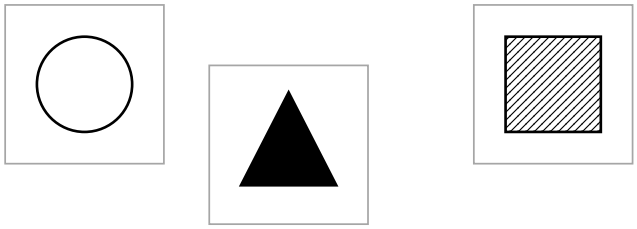
Use the nine tiles, one of each shape and fill. An allowed three uses three different tiles. Its shapes are all the same or all different. Its fills are also all the same or all different. Tile positions do not matter.



allowed three

shapes all different

fills all different

not allowed

shapes all different

fills  two the same

Problem 3: Choose one tile and keep it in the middle of the table. Find all allowed threes using it; then try other middle tiles.
