Week 42 / Fair results from a bag / Problem menu

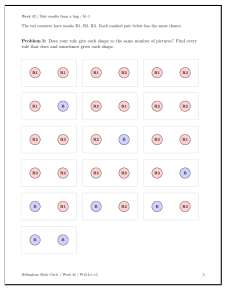

for adults: pick, then print

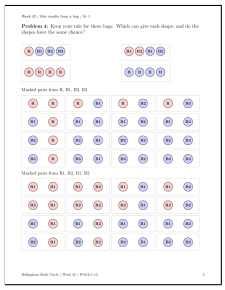

Every color pair, and which disappear without blue
K–1 P1
first route

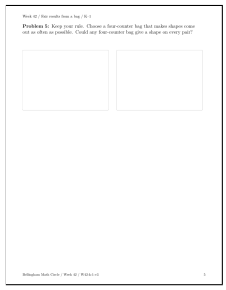

A shape rule with equal chances
K–1 P2
first route

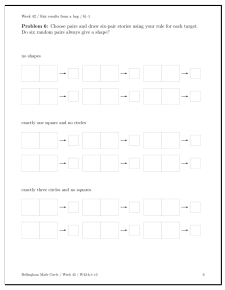

Count the shapes on the sixteen marked pairs
K–1 P3
first route

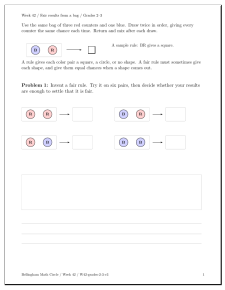

The same rule on other bags
K–1 P4
return route

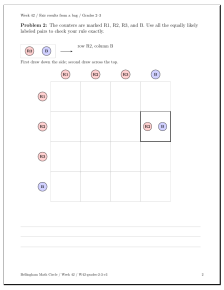

Shapes as often as possible
K–1 P5
return route

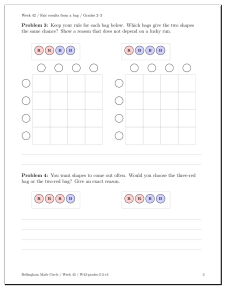

Six-pair stories
K–1 P6
return route

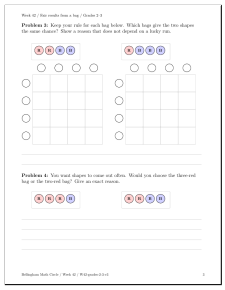

Invent a fair rule and try it
Grades 2–3 P1
first route

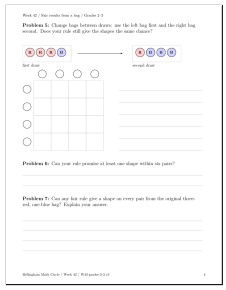

Check the rule on all sixteen labeled pairs
Grades 2–3 P2
first route

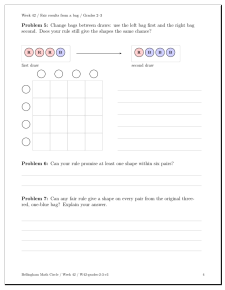

The rule on other bags
Grades 2–3 P3
return route

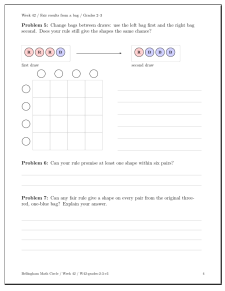

Which bag gives shapes more often?
Grades 2–3 P4
return route

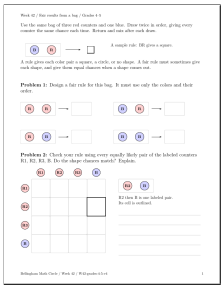

Changing bags between draws
Grades 2–3 P5
return route

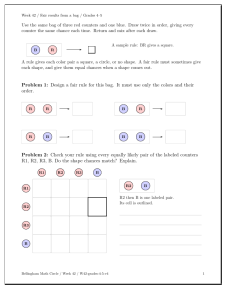

Can a rule promise a shape within six pairs?
Grades 2–3 P6
return route

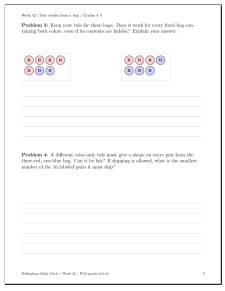

A fair rule with a shape on every pair?
Grades 2–3 P7
return route

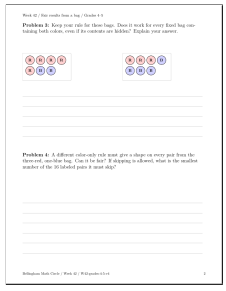

Design a fair color-only rule
Grades 4–5 P1
first route

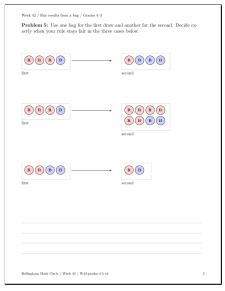

Check the rule on the labeled pairs
Grades 4–5 P2
first route

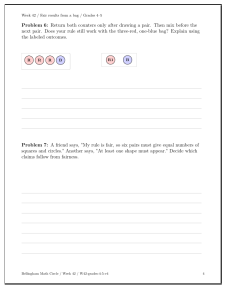

Every fixed bag with both colors
Grades 4–5 P3
return route

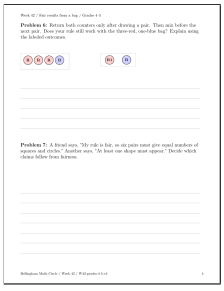

A rule that never skips
Grades 4–5 P4
return route

One bag first, another second
Grades 4–5 P5
return route

Returning only after the pair
Grades 4–5 P6
return route

What fairness promises
Grades 4–5 P7
return route
