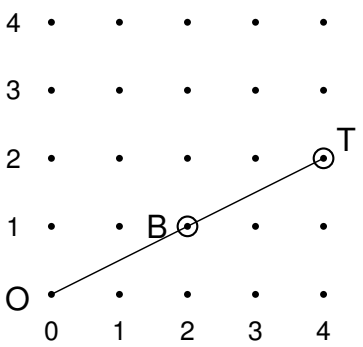
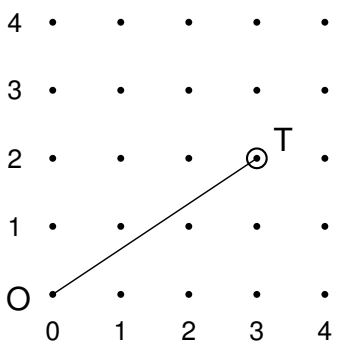
Stretch a thread from O to another dot T. A dot exactly on the thread between O and T blocks T. B marks a blocker. Keep O fixed while you test.

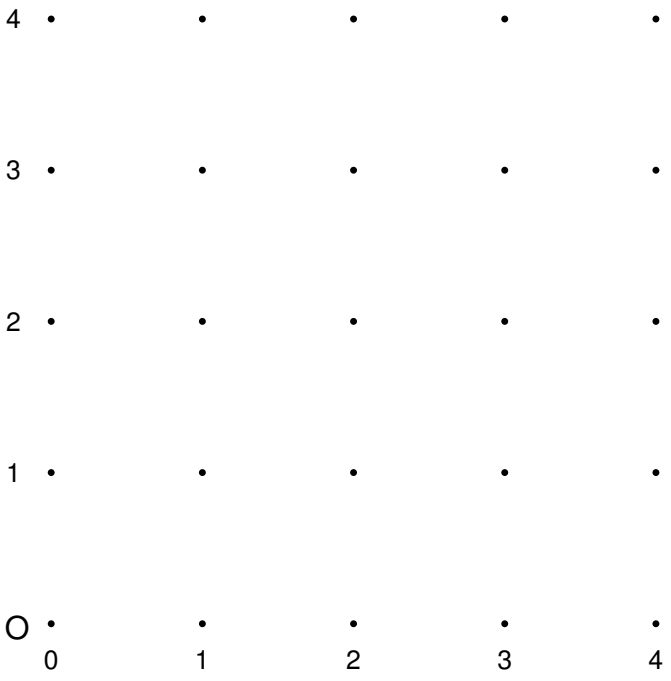


hidden

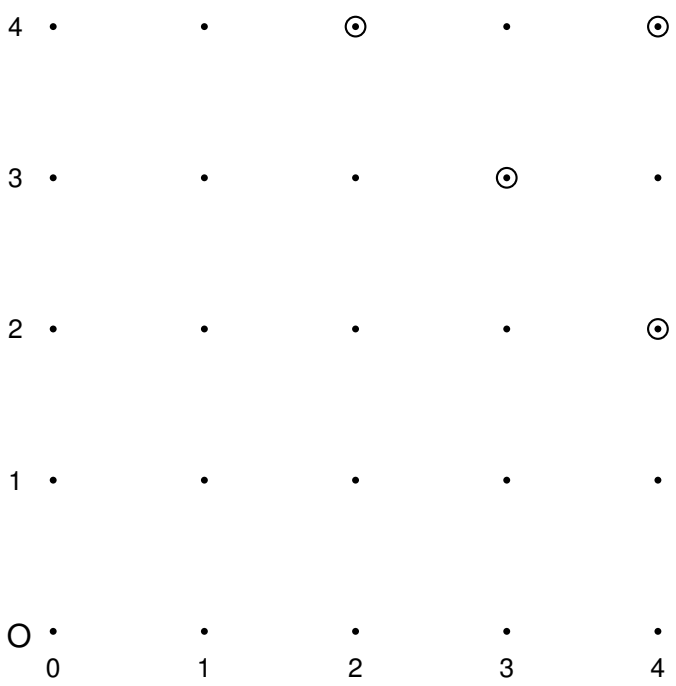


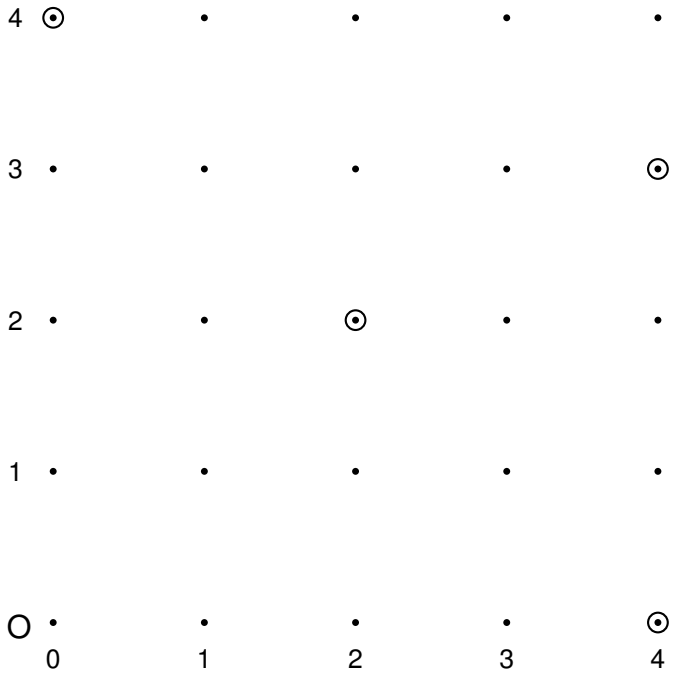
visible

Problem 1: Which dots can you see from O? Circle every visible dot.

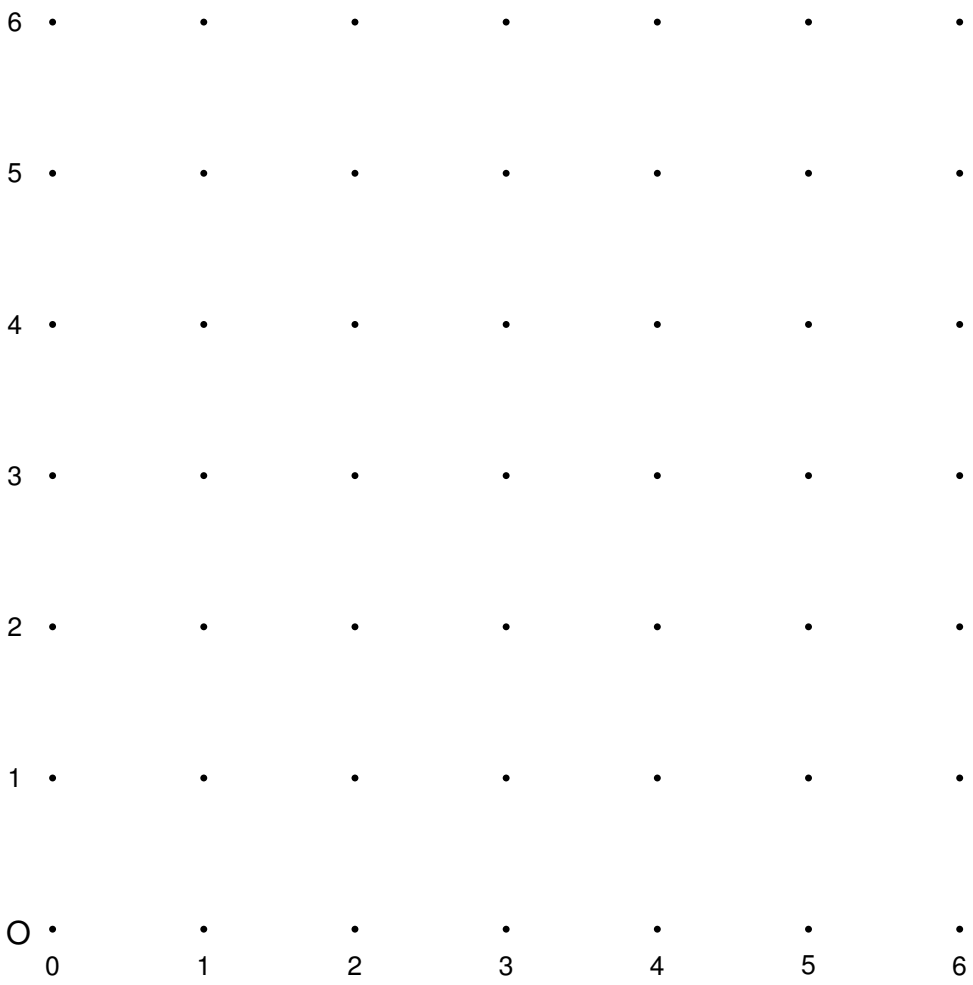


Problem 2: Which circled targets are hidden? Find the blocker nearest O for each hidden target.

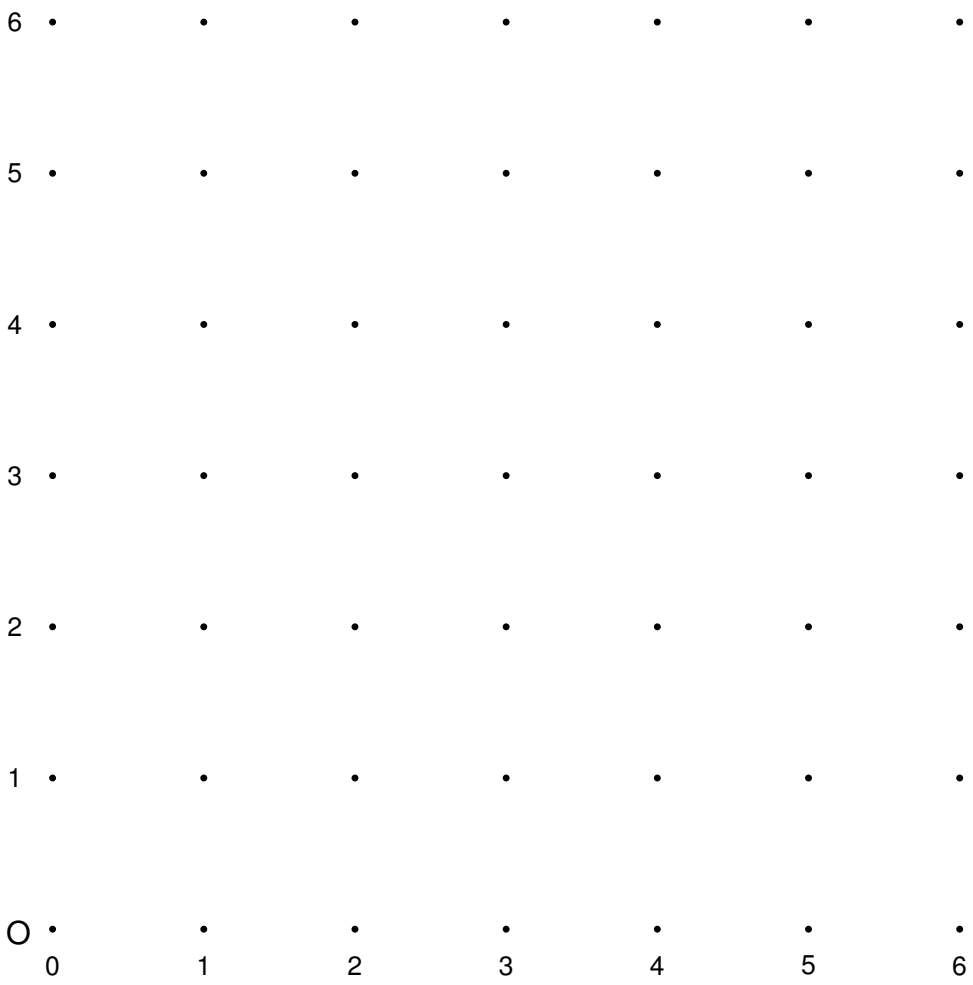


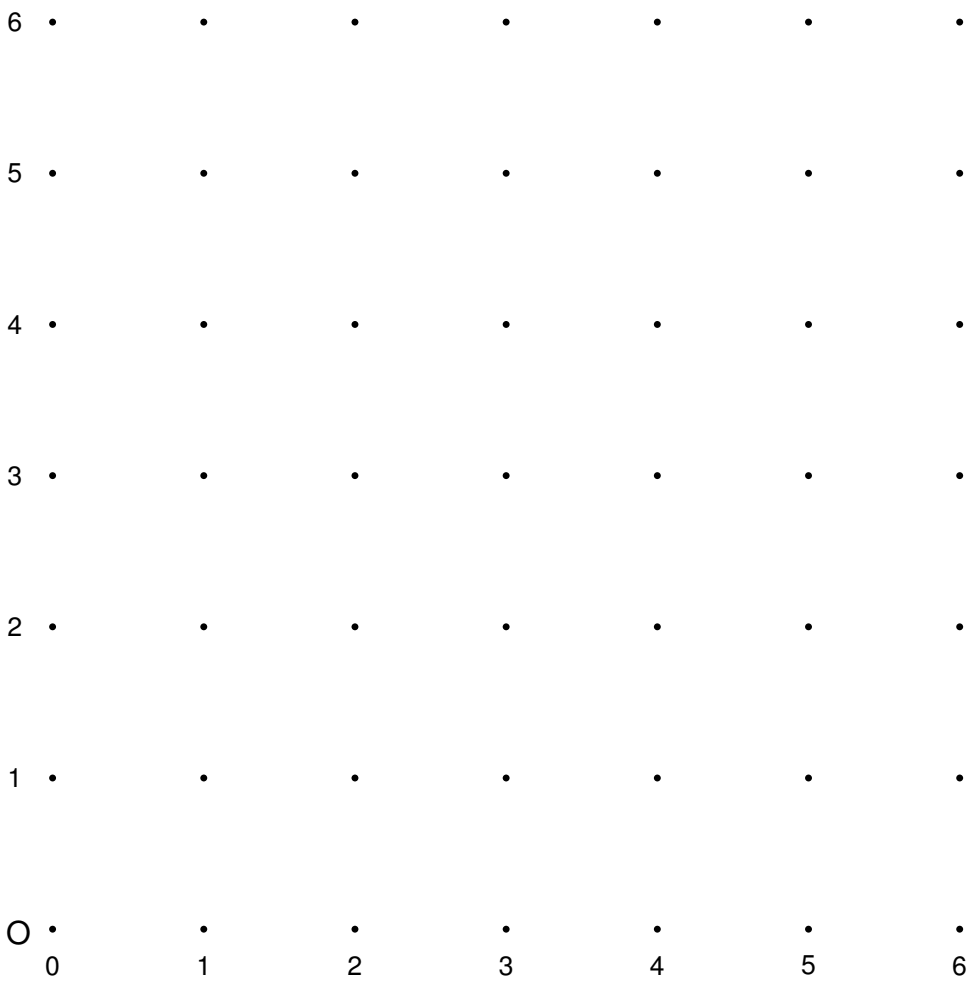


Problem 3: Find every target with exactly one dot between it and O. Then find every target with exactly two.



Problem 4: Find a row where every dot is visible. Is there a row where every dot is hidden?





Problem 5: Which visible dot hides the most dots behind it? Find every visible dot that ties for the most.
