Use each label once in two groups, with at least one label in each. Draw each group's stretched-band region and lightly shade its inside. Use the centers of the marks. Sharing even one point counts. Swapping the two groups is the same split.

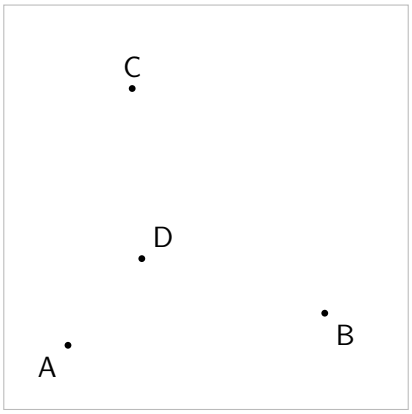

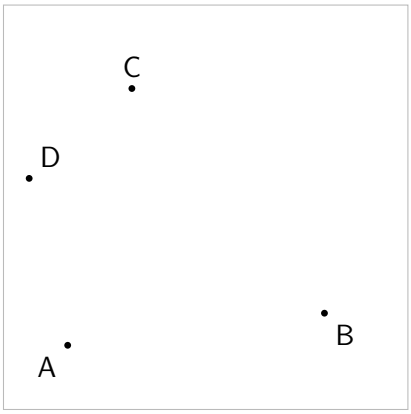

Problem 1: Put D on each cross. Each time, find a split whose regions meet.

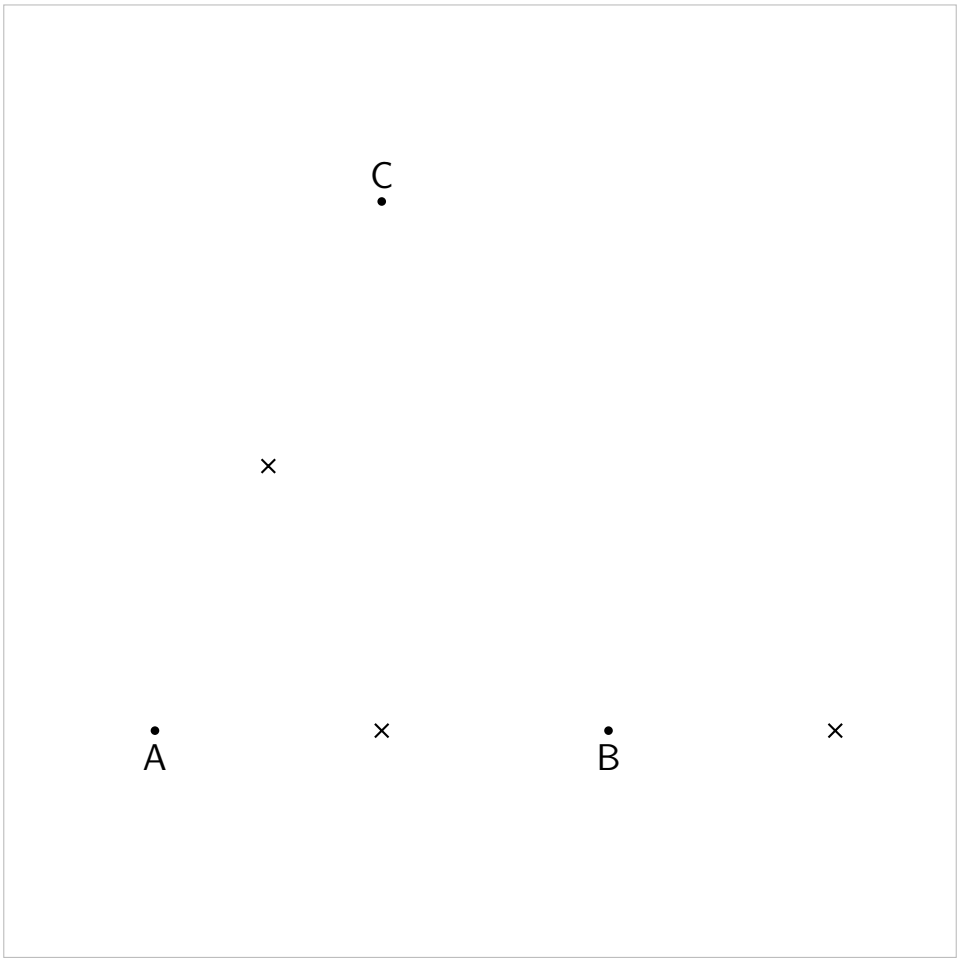

Problem 1: For each place of D, draw the two regions you found and mark a point they share.

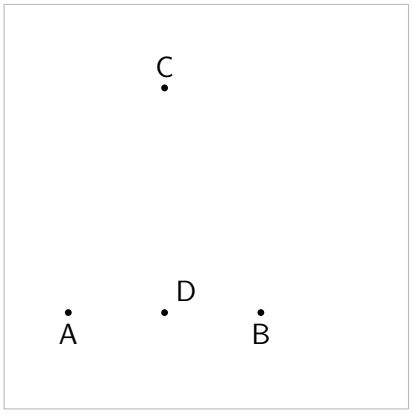

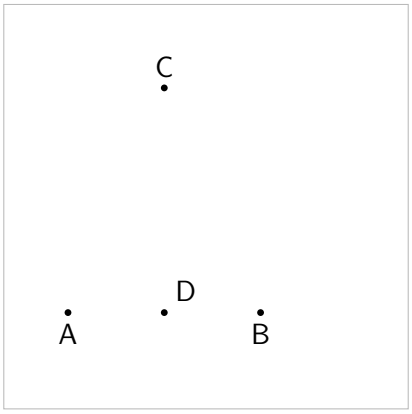

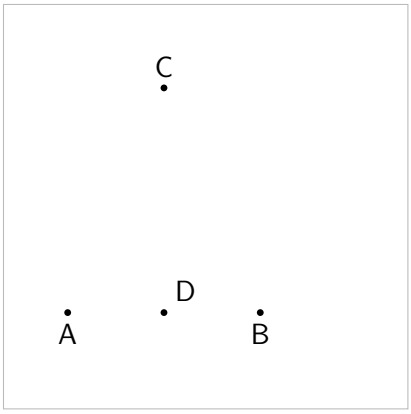

Problem 2: Try D on each cross. Find every split whose regions meet.

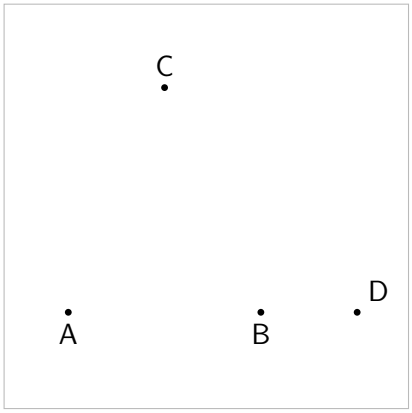

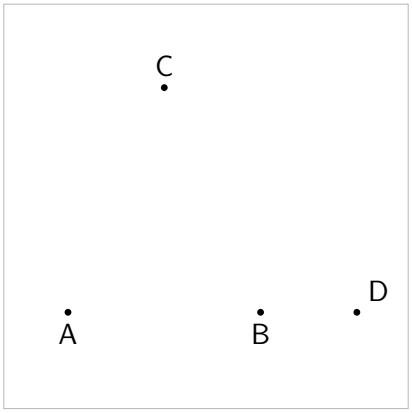

Problem 2: Find every split whose regions meet.

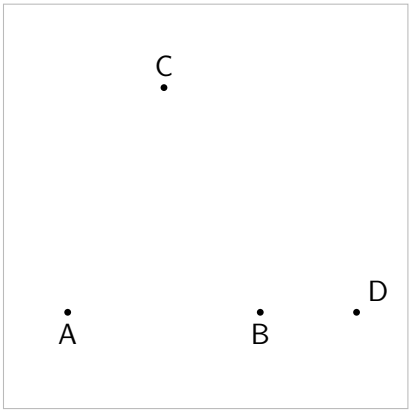

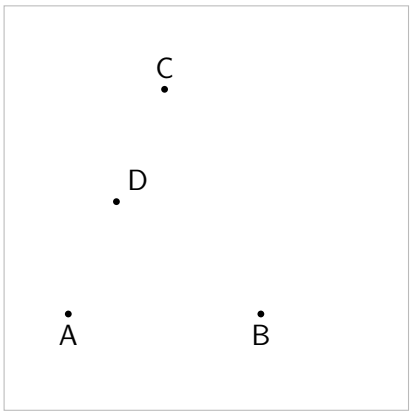

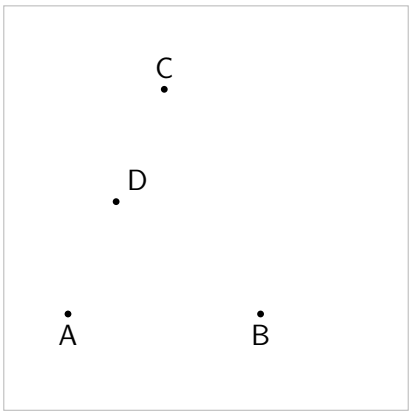

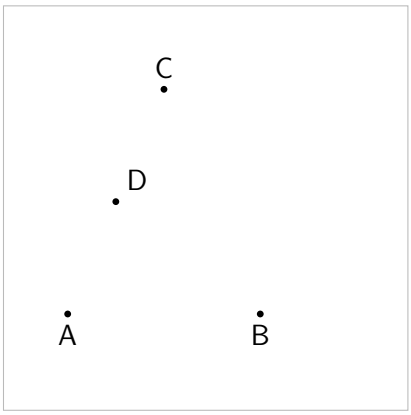

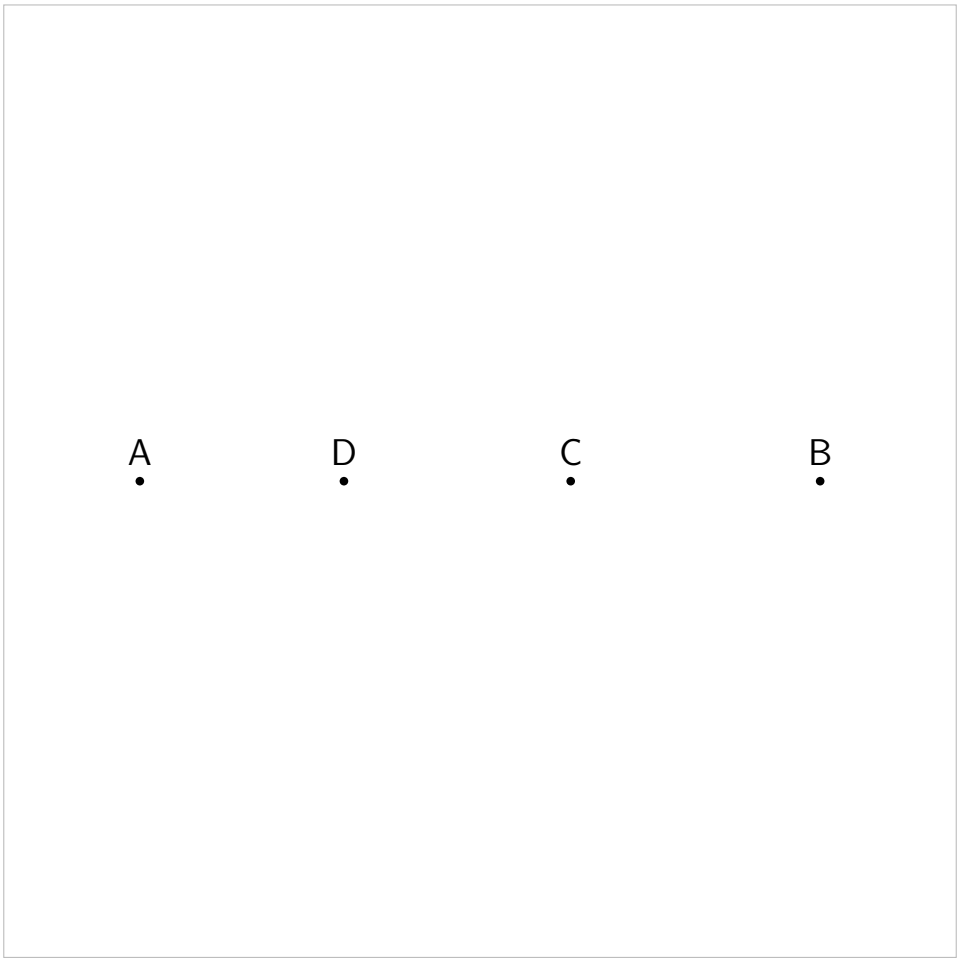

Problem 3: Find every split whose regions meet.

Problem 3: Find every split whose regions meet.
